# INDEX

# EXCERPTS FROM FINANCE MINISTER'S SPEECH

- The International Monetary Fund has hailed India as a 'bright spot' amidst a slowing global economy. The World Economic Forum has said that India's growth is 'extraordinarily high'. We accomplished this despite very unfavourable conditions and despite the fact that we inherited an economy of low growth, high inflation and zero investor confidence in Government's capability to govern.
- Our initiatives in the last 21 months have not only placed the economy on a faster growth trajectory but have bridged the trust deficit, created by the previous Government.
- We believe in the principle that money with the Government belongs to the people and we have the sacred responsibility to spend it prudently and wisely for the welfare of our people, especially the poor and the downtrodden
- The risks of further global slowdown and turbulence are mounting. This complicates the task of economic management for India. It has three serious implications for us. First, we must strengthen our firewalls against these risks by ensuring macro- economic stability and prudent fiscal management. Second, since foreign markets are weak, we must rely on domestic demand and Indian markets to ensure that India's growth does not slow down. And third, we must continue with the pace of economic reforms and policy initiatives to change the lives of our people for the better.
- The Government is also launching a new initiative to ensure that the BPL families are provided with a cooking gas connection, supported by a Government subsidy. This will significantly improve the health of women and those BPL families who suffer adversely from the ill-effects of Chulha cooking
- A dedicated Long Term Irrigation Fund will be created in NABARD with an initial corpus of about `20,000 crore.
- To support farmers in the aftermath of natural calamities, Government has revised the norms of assistance under the National Disaster Response Fund in April 2015.
- Swachh Bharat Mission is India's biggest drive to improve sanitation and cleanliness, especially in rural India. This subject was very close to the heart of the Father of the Nation. For the first time since independence, the Parliament held a comprehensive debate on sanitation.
- We have already approved two Schemes to promote digital literacy: National

Digital Literacy Mission; and Digital Saksharta Abhiyan (DISHA). We now plan to launch a new Digital Literacy Mission Scheme for rural India to cover around 6 crore additional households within the next 3 years. Details of this scheme will be spelt out separately.

- Modernisation of land records is critical for dispute free titles. The National Land Record Modernisation Programme has been revamped under the Digital India Initiative and will be implemented as a Central sector scheme with effect from 1st April, 2016.
- When asked what he intends doing for regeneration of India, Swami Vivekananda had said "no amount of politics would be of any avail until the masses in India are well educated, well fed and well cared for".
- provide LPG connection in the name of women members of poor households.
- I want to take this opportunity to express our gratitude and appreciation for the 75 lakh middle class and lower middle class households who have voluntarily given up their cooking gas subsidy, in response to the call given by the Hon'ble Prime Minister. Their gesture is a matter of pride for the country.
- In order to help such families, the Government will launch a new health protection scheme which will provide health cover up to Rs.One lakh per family. For senior citizens of age 60 years and above belonging to this category, an additional top-up package up to `30,000 will be provided.
- Making quality medicines available at affordable prices has been a key challenge. We will reinvigorate the supply of generic drugs. 3,000 Stores under Prime Minister's Jan Aushadhi Yojana will be opened during 2016-17.
- I propose to start a 'National Dialysis Services Programme'. Funds will be made available through PPP mode under the National Health Mission, to provide dialysis services in all district hospitals.
- Scheduled Caste and Scheduled Tribe entrepreneurs are beginning to show great promise in starting and running successful business enterprises.
- It is our commitment to empower Higher Educational Institutions to help them become world class teaching and research institutions. An enabling regulatory architecture will be provided to ten public and ten private institutions to emerge as world-class Teaching and Research Institutions.
- We have decided to set up a Higher Education Financing Agency (HEFA) with an initial capital base of `1,000 crores. The HEFA will be a not-for-profit organisation that will leverage funds from the market and supplement them with

donations and CSR funds.

- it is proposed to establish a Digital Depository for School Leaving Certificates, College Degrees, Academic Awards and Mark sheets, on the pattern of a Securities Depository.
- Entrepreneurship Education and Training will be provided in 2200 colleges, 300 schools, 500 Government ITIs and 50 Vocational Training Centres through Massive Open Online Courses. Aspiring entrepreneurs, particularly those from remote parts of the country, will be connected to mentors and credit markets.
- In order to incentivize creation of new jobs in the formal sector, Government of India will pay the Employee Pension Scheme contribution of 8.33% for all new employees enrolling in EPFO for the first three years of their employment.
- If Shopping Malls are kept open all seven days of the week, why not the small and medium shops? These shops should be given the choice to remain open on all seven days of the week on voluntary basis. We propose to circulate a Model Shops and Establishments Bill which can be adopted by the State Governments on voluntary basis.
- The duty drawback scheme has been widened and deepened to include more products and countries.
- The Department of Disinvestment is being re-named as the "Department of Investment and Public Asset Management (DIPAM)".
- We already have a comprehensive 'Plan For Revamping of Public Sector Banks', INDRADHANUSH, which is under implementation. We are now confronted with the problem of stressed assets in Public Sector Banks, which is a legacy from the past.
- To remove the difficulties and impediments to ease of doing business, we will introduce a bill to amend the Companies Act, 2013 in the current Budget Session of the Parliament. The Bill would also improve the enabling environment for start-ups. The registration of companies will also be done in one day.

## 3. BASIS OF CHARGE

### 3.1 Amendment to Section 6 (3) – Residence in India – (Clause 4)

**Existing Provision**

Sub-section 3 of section 6 was amended by Finance Act, 2015 w.e.f. 1-4-2016 i.e. from A.Y. 2016-17 and deals with conditions to be satisfied for a company to be treated as resident in India in any previous year.

Finance Act, 2015 provided that a company is said to be resident in India in any previous year, if:

(i) it is an Indian company or

(ii) Its place of effective management, in that year, is in India.

Explanation --- For the purpose of this clause "place of effective management" means a place where key management and commercial decisions that are necessary for the conduct of the business of an entity as a whole are, in substance made.

**Proposed Amendment**

Clause 4 of the Finance Bill, 2016 proposes to extend the date to determine the residential status of the company from 1-4-2016 to 1-4-2017 i.e. it will be effective from A.Y. 2017-18.

It may also be noted here that since the date is extended the old provisions of section 6(3) will apply for A.Y. 2016-17 to determine the residential status of the company which is given hereunder:

(3) A company is said to be resident in India in any previous year, if

(i) It is an Indian company; or

(ii) During that year, the control and management of its affairs is situated wholly in India.

## 3.2 Income deemed to accrue or arise in India : Insertion of new clause (e) in Section 9(1)(i) – (Clause 5)

Finance Bill 2016 proposes to insert new clause (e) to section 9(1)(i) in the case of foreign company engaged in mining of diamonds.

**Proposed Amendment**

It is proposed to provide that in the case of a foreign company engaged in the business of mining of diamonds, no income shall be deemed to accrue or arise in India through or from the activities which are related to the display of uncut and unasserted diamond in any special zone notified by the Central Government.

**Reason**

A "Special Notified Zone" (SNZ) had been created to facilitate shifting of operations by foreign mining companies (FMC) to India and to permit the trading of rough diamonds in India by the leading diamond mining companies of the world. The activity of FMC of mere display of rough diamonds even with no actual sale taking place in India may lead to creation of business connection in India of the FMC. This potential tax exposure has been an area of concern for the mining companies willing to undertake these activities in India.

In order to facilitate the FMCs to undertake activity of display of uncut diamond (without any sorting or sale) in the special notified zone, it is proposed to amend section 9 of the Act to provide that in the case of a foreign company engaged in the business of mining of diamonds, no income shall be deemed to accrue or arise in India to it through or from the activities which are confined to display of uncut and unassorted diamonds in a Special Zone notified by the Central Government in the Official Gazette in this behalf.

**Effective Date**

This amendment will take effect retrospectively from 1-4-2016 i.e. from A.Y. 2016-17.

## 3.3 Certain activities not to constitute business connection in India : Amendment to Section 9A – (Clause 6)

**Existing Provision**

In case of offshore funds, fund management activity carried out through eligible fund manager acting on behalf of such funds shall not constitute business connection in India. Further an eligible investment fund shall not be said to be resident in India merely because the eligible fund manager undertaking fund management activities on its behalf is located in India subject to the conditions in sub- sections (3), (4) and (5).

One of the conditions of sub-section 3(b) is that a fund is a resident of a country or a specified territory with which Double Taxation Avoidance Agreement (DTAA) or Tax Information Exchange Agreement (TIEA) is entered into.

**Proposed Amendment**

It is proposed to modify the condition to provide that the eligible investment fund for purposes of section 9A shall also mean a fund established or incorporated or registered outside India in a country or a specified territory notified by the Central Government in this behalf. It is also proposed to provide that the condition of fund not controlling and managing any business in India or from India shall be restricted only in the context of activities in India.

**Reason**

There are many instances where a fund may not qualify as a tax resident of a country on account of domestic tax laws or legal framework of the country. The global structure of these funds had been based on applicable legal and regulatory framework of their country of incorporation and cannot be modified in respect of any investment made in a particular country. Examples of large pension funds or mutual funds from USA or SICAVs (open ended collective investment schemes) from Luxembourg had been cited. India would still be able to collect information regarding fund under the applicable DTAA or TIEA as under the agreements with many of the countries, information can be exchanged in respect of persons who may not be resident of the country. the conditions relating to restriction on fund carrying on business or controlling fund managing business in India or from India restricts the flexibility of operation for funds and focus should be on nature of activities undertaken in India.

(b) "consolidated plan" means the plan with which the consolidating plan merges or which is formed as a result of such merger;

(c) "mutual fund" means a mutual fund specified under clause (23D) of section 10.

**Reason**

A. This amendment is proposed to promote Sovereign Gold Bond Scheme, 2015

The Reserve Bank of India has recently permitted Indian corporates to issue rupee denominated bonds outside India as a measure to enable the Indian corporates to raise funds from outside India. Accordingly, with a view to provide

relief to non-resident investor who bears the risk of currency fluctuation, it is proposed to amend section 48 of the Act so as to provide that the capital gains, arising in case of appreciation of rupee between the date of issue and the date of redemption against the foreign currency in which the investment is made shall be exempt from tax on capital gains (clause no. 29).

**Reason:**

The Income Tax Simplification Committee (Easwar Committee) has in its first report, pointed out that this provision does not provide any relief where the seller has entered into an agreement to sell the property much before the actual date of transfer of the immovable property and the sale consideration is fixed in such agreement, whereas similar provision exists in section 43CA of the Act i.e. when an immovable property is sold as a stock-in-trade. vii) If the assessee takes any loan or advance on the security of such specified asset, he shall be deemed to have transferred such specified asset on the date on which such loan or advance is taken.

(v) The assessee maintains separate books of account in respect of the housing project.

(vi) No deduction is allowed to any undertaking, which executes the housing project as a works contract awarded by any person including State or Central Government.

The assessee is required to complete the said project (with certificate of completion from the competent authority) within a period of three years from the date of approval by the competent authority, failing which the entire deduction claimed in previous years shall be deemed as his income deemed to be the income of the assessee chargeable under the head "Profits and gains of business or profession" of the previous year in which the period for completion so expires.
The Competent Authority means Authority empowered by the Central Government.

**Reason**
To incentivise affordable housing sector as a part of larger objective of 'Housing for All'

## 11.6 Substitution of Section 80JJAA: Deduction in respect of employment of new employees [Clause 44]

**Existing Provision**
Section 80JJAA provides for a deduction of 30% of additional wages paid to new regular workmen in a factory. The provisions apply to the business of manufacture of goods in a factory. The deduction is available for three assessment years including the assessment year relevant to the previous year in which such employment is provided.

New regular workmen are considered where 'workmen' are employed for not less than three hundred days in a previous year. Further, benefits are allowed only if

there is an increase of at least ten percent in total number of workmen employed on the last day of the preceding year.

Deduction under this section is not available if the factory is hived off or transferred from another existing entity or acquired by assessee as a result of amalgamation with another company.

**Proposed Amendment**

It is proposed to substitute new section. It is proposed that the deduction under this provision shall be available to any assessee deriving profits and gains from business and who is liable for tax audit u/s. 44AB.

Such an assessee will be allowed a deduction of an amount equal to 30% of "additional employee cost" incurred in the course of such business in the previous year. The deduction is available for three assessment years including the assessment year relevant to the previous year in which such employment is provided.

**"Additional employee cost"** here means total emoluments paid or payable to additional employees employed during the previous year. Further in the first year of a new business, emoluments paid or payable to employees employed during that previous year shall be deemed to be the additional employee cost;

However, in case of an existing business additional cost shall be considered NIL, if,

i. There is no increase in the number of employees from the last day of the preceding year
ii. Emoluments are paid otherwise than by an account payee cheque or account payee bank draft or by use of electronic clearing system through a bank account

"**Additional employee**" here means an employee who has been employed during the previous year and whose employment has the effect of increasing the total number of employees employed by the employer as on the last day of the preceding year.

Following employees are not considered part of "Additional employees':

(*a*) an employee whose total emoluments are more than Rs. 25,000 per

month; or

(*b*) an employee for whom the entire Employees' Pension Scheme is paid by the Government

(*c*) an employee employed for a period of less than 240 days or

(*d*) an employee who does not participate in the recognised provident fund;

Thus the norms for minimum number of days of employment in a financial year from 300 days are reduced to 240 days. Further, the condition of 10% increase in number of employees every year is proposed to be done away with, so that any increase in the number of employees will be eligible for deduction under the provision.

"Emoluments" here means any sum paid or payable to an employee *in lieu* of his employment by whatever name called, but does not include—

(*a*) any contribution by the employer to any pension or provident or any other fund for the benefit of the employee under any law for the time being in force; and

(*b*) any lump-sum payment to an employee at the time of termination of his service or superannuation or voluntary retirement, such as gratuity, severance pay, leave encashment, voluntary retrenchment benefits, commutation of pension etc..

Deduction under this section will not be allowed, if:

*(a)* the business is formed by splitting up, or the reconstruction, of an existing business:

(*b*) the business is acquired by the assessee by way of transfer from any other person or as a result of any business re-organisation;

*(c)* the assessee does not furnishes prescribed audit report of Chartered Accountant in this regard along with the return of income,

The subsection (3) provides that the provision as it stood immedeatly prior to the amendment by this finance bill shall apply to an assessee eligible to claim any deduction for any assessment year commencing on or before 1st April 2016.

**Reason**

To provide employment generation incentive to all the sectors.

## 12 PHASING OUT OF DEDUCTIONS AND EXEMPTIONS

**Sec: 10AA, 35AC, 35CCD, 80IA, 80IAB, 80IB, 32, 35(1)(ii), 35(1)(iia), 35(1)(iii), 35(2AA), 35(2AB), 35AD, 35CCC - Phasing out of deductions and exemptions – ( Clause: 8, 15, 17, 18, 19, 20, 39, 40, 42)**

The Finance Minister in his Budget Speech, 2015 has indicated that the rate of corporate tax will be reduced from 30% to 25% over the next four years along with corresponding phasing out of exemptions and deductions. The Government proposed to implement this decision in a phased manner. In this regard, broad guiding principles had been put in the public domain for receiving comments from the stakeholders. These guiding principles are listed below for reference:-

- Profit linked, investment linked and area based deductions will be phased out for both corporate and non-corporate tax payers.
- The provisions having a sunset date will not be modified to advance the sunset date. Similarly the sunset dates provided in the Act will not be extended.
- In case of tax incentives with no terminal date, a sunset date of 31.3.2017 will be provided either for commencement of the activity or for claim of benefit depending upon the structure of the relevant provisions of the Act.
- There will be no weighted deduction with effect from 01. 04.2017.

## 13. REBATE OF INCOME TAX

### 13.1 Section 87A: Rebate in Income Tax -[Clause 45]

**Existing Provision**

The existing provisions of section 87A provides for a rebate of an amount equal to 100% of such income-tax or an amount of RS. 2,000 whichever is less, from the amount of income-tax to an individual resident in India whose total income does not exceed RS. 5 Lakhs.

**Proposed Amendment**

It is proposed to increase the maximum amount of such rebate from existing RS.2,000 to Rs. 5000.

**Reason**

To provide relief to resident individuals in the lower income slab

## 14. SPECIAL PROVISIONS RELATING TO AVOIDANCE OF TAX

### 14.1 Amendment to Section 92CA - Extension of time limit to transfer pricing officer in certain cases: - (Clause 46)

**Existing Provision**

Section – 92CA of the Act provides that where an assessee has entered into an international transaction, a reference can be made by an Assessing Officer to Transfer Pricing Officer (TPO) if he considers it necessary or expedient to do so for determination of arm's length price.

Section 92CA (3A) of the Act states that TPO has to pass his order at least sixty days prior to the date on which the limitation for making assessment expires.

**Proposed Amendment**

Clause 46 of the Finance Bill seeks to amend sub-section (3A) of section 92CA by inserting a proviso to provide that in the circumstances referred to in clause (ii) or clause (viii) of Explanation (1) to section 153 if period of limitation available to the TPO for making an order is less than sixty days, such remaining period shall be extended to sixty days and the aforesaid period of limitation shall be deemed to have been extended accordingly.

**Reason**

It was noted that at times seeking information from foreign jurisdictions was necessary for determination of arm's length price by the TPO and at times proceedings before the TPO were also stayed by a court order.

It is therefore proposed to amend sub-section (3A) of section 92CA to provide time to TPO for making an order after excluding the time for which assessment proceedings were stayed or the time taken for receipt of information where a reference for exchange of information has been made by the competent authority, as the case may be, was less than sixty days, then such remaining period shall be extended to sixty days and the period of limitation u/s 153 shall be deemed to have been extended accordingly.

**Effective Date**

This amendment will take effect from 1st June, 2016 and will, accordingly, apply in relation to the assessment year 2016-2017 and subsequent assessment years.

## 14.2 Amendment to Section 92D - Transfer Pricing Documentation. - (Clause 47)

**Existing Provision**

Section 92D of the Income tax Act relates to maintenance and keeping of information and document by persons entering into an international transaction or specified domestic transaction.

The aforesaid section provides that every person who has entered into an international transaction or specified domestic transaction shall keep and maintain such information and document in respect thereof as may be prescribed. The said section further provides that the Assessing Officer or the Commissioner (Appeals) may in the course of any proceeding require such person to furnish the information and document within the period of thirty days of it being called for or within the extended period.

**Proposed Amendment**

It is proposed to insert proviso to sub-section (1) of sub-section 1 of section 92D of the Income Tax Act so as to provide that the person being a constituent entity of an international group, referred to in section 286, shall also keep and maintain such information and document in respect of the international group as may be prescribed.

It is further proposed to insert new sub-section 4 to section 92D of the Income Tax Act so as to provide that without prejudice to the power of the Assessing Officer or the Commissioner (Appeals) to call for the information and document, the person being a constituent entity of an international group, shall furnish the prescribed information and document to the prescribed authority referred to in sub-section 1 of section 286 in the prescribed manner on or before the date to be prescribed.

**Reason**

India has been one of the active members of BEPS (Base Erosion and Profit Shifting) initiative and part of international consensus. The OECD report on

Action 13 of BEPS Action plan provides for revised standards for transfer pricing documentation and a template for country-by-country (cbc) reporting of income, earnings, taxes paid and certain measure of economic activity. It is recommended in the BEPS report that the countries should adopt a standardized approach to transfer pricing documentation. Hence a three tired structure (country-by-country report, master file and local file) for reporting has been mandated. These documents require taxpayers to articulate consistent transfer pricing positions and will provide tax administrations with useful information to assess transfer pricing risks. It will facilitate tax administrations to make determinations about where their resources can most effectively be deployed, and, in the event audits are called for, provide information to commence and target audit enquiries.

The CbC reporting requirement for a reporting year does not apply unless the consolidated revenues of the preceding year of the group, based on consolidated financial statement, exceeds a threshold to be prescribed. The current international consensus is for a threshold of € 750 million equivalent in local currency. This threshold in Indian currency would be equivalent to Rs. 5395 crores (at current rates). Therefore, CbC reporting for an international group having Indian parent, for the previous year 2016-17, shall apply only if the consolidated revenue of the international group in previous year 2015-16 exceeds Rs. 5395 crore (the equivalent would be determinable based on exchange rate as on the last day of previous year 2015-16).

## 14.3 Consequential Amendment by insertion of New section 286 (Clause 110):

### Proposed Provision

Clause 110 of the Bill seeks to insert a new section 286 in the Income-tax Act relating to furnishing of report in respect of international group. The proposed section provides for furnishing of a report in respect of an international group, if the parent entity of the group is not resident in India.

Sub-section (1) of the proposed new section provides that constituent entity in India of an international group, the parent entity of which is not a resident in India shall notify the prescribed income tax authority before such date as may be prescribed regarding whether it is the alternate reporting entity of the international group or the details of parent entity or an alternate reporting

entity, if any, of the international group, and the country or territory of which the said entities are resident.

Sub-section (2) of the proposed new section provides that every parent entity or the alternate reporting entity, resident in India, shall for every reporting accounting year, in respect of the international group furnish a report, to the prescribed authority on or before the due date specified under sub-section (1) of section 139 for furnishing the return of income for the relevant accounting year, in the form and manner as may be prescribed.

Sub-section (3) of the proposed new section provides for the details to be contained in the report to be furnished. It inter alia, provides that the report shall contain aggregate information in respect of amount of revenues, profit or loss before income-tax, taxes accrued and paid, stated capital, accumulated earnings, number of employees and tangible assets not being cash or cash equivalents, with regard to each country or territory in which the group operates, the details of each constituent entity of the group including the country or territory in which such constituent entity is incorporated or organized or established and the country or territory where it is resident, the nature and details of the main business activity or activities of each constituent entity and any other information as may be prescribed.

Sub-section (4) provides a constituent entity of an international group, resident in India, other than the entity referred to in sub-section (2) shall furnish the report referred to in the said sub-section, in respect of the international group for a reporting accounting year, if the parent entity is resident of a county or territory with which India does not have an agreement providing for exchange of the report of the nature referred to in sub-section (2) or there has been a systemic failure of the county or territory and the said failure has been intimated by the prescribed authority to such constituent entity. Provided that where there are more than one such constituent entities of the group, resident in India, the report shall be furnished by any one constituent entity if the international group has designated such entity to furnish the report on behalf of all the constituent entities resident in India and the information has been conveyed in writing on behalf of the group to the prescribed authority.

Sub-section (5) provides that if an alternate reporting entity of the international group has furnished a report of the nature referred to in sub-section (2), with the tax authority of the country or territory in which such entity is resident, on or

before the date specified in the said sub-section subject to the report is required to be furnished under the law for the time being in force in the said country or territory, the said country or territory has entered into an agreement with India providing for exchange of the said report, the prescribed authority has not conveyed any systemic failure in respect of the said country or territory to any constituent entity of the group that is resident in India, the said country or territory has been informed in writing by the constituent entity that it is the alternate reporting entity on behalf of the international group and the prescribed authority has been informed by the entities referred to in sub-section (4) in accordance with sub-section (1).

Sub-section (6) of the proposed new section provides that the prescribed authority may, by issuance of notice for the purpose of verifying the accuracy of the report furnished by any entity, require submission of information and document as specified in the notice within 30 days from the date of receipt of the notice. The period of 30 days can be extended for a further period of 30 days by the prescribed authority.

Sub-section (7) of the proposed new section provides that the reporting requirement under this section shall not apply to an accounting year, if the total consolidated group revenue for the accounting year preceding such accounting year does not exceed the threshold amount, as may be prescribed.

Sub-section (8) of the proposed new section provides for application of the section in accordance with such guidelines and subject to such conditions as may be prescribed.

Sub-section (9) of the proposed new section, inter alia, defines various terms for the purposes of the new section viz. accounting year, agreement, alternate reporting entity, constituent entity, group, consolidated financial statement, international group, parent entity, permanent establishment, reporting accounting year, reporting accounting year, reporting entity and systematic failure.

**Reason**

India has been one of the active members of BEPS initiative and part of international consensus. The OECD report on Action 13 of BEPS Action plan provides for revised standards for transfer pricing documentation and a template for country-by-country (cbc) reporting of income, earnings, taxes paid and

certain measure of economic activity. It is recommended in the BEPS report that the countries should adopt a standardized approach to transfer pricing documentation. Hence a three tired structure (country-by-country report, master file and local file) for reporting has been mandated. These documents require taxpayers to articulate consistent transfer pricing positions and will provide tax administrations with useful information to assess transfer pricing risks. It will facilitate tax administrations to make determinations about where their resources can most effectively be deployed, and, in the event audits are called for, provide information to commence and target audit enquiries.

The CbC reporting requirement for a reporting year does not apply unless the consolidated revenues of the preceding year of the group, based on consolidated financial statement, exceeds a threshold to be prescribed. The current international consensus is for a threshold of € 750 million equivalent in local currency. This threshold in Indian currency would be equivalent to Rs. 5395 crores (at current rates).

## 15. DETERMINATION OF TAX IN CERTAIN SPECIAL CASES

### 15.1 Amendment in Section 112 : Clarification regarding the definition of the term 'unlisted securities' for the purpose of Section 112 (1) (c) - (Clause 48)

**Proposed Amendment**

Clause – 48 of the Finance Bill seeks to substitute words "unlisted securities" as appearing in Section 112(1)(c) with the words – "unlisted securities or shares of a company not being a company in which the public are substantially interested"

**Reason**

The existing provisions of Section 112(1)(c) provide tax rate of ten per cent for long-term capital gain arising from transfer of securities, whether listed or unlisted. The expression "securities" for the purpose of the said provision has the same meaning as in clause (h) of section 2 of the Securities Contracts (Regulations) Act, 1956 ('SCRA'). A view has been taken by the courts that shares of a private company are not "securities". With a view to clarify the position so far as taxability is concerned, it is proposed to amend the provisions of section 112(1)(c) of the Act, so as to provide that long-term capital gains

arising from the transfer of a capital asset being shares of a company not being a company in which the public are substantially interested, shall be chargeable to tax at the rate of 10 per cent.

## 15.2 Insertion of Section 115BA: RELIEF IN TAX FOR NEWLY SET-UP DOMESTIC COMPANIES ENGAGED SOLELY IN MANUFACTURE OR PRODUCTION OF ARTICLE OR THING- (Clause 49)

### Proposed Amendment

The rates of income-tax in the case of domestic company is proposed to be twenty nine per cent of the total income, if the total turnover or gross receipts of the company in the previous year 2014-15 does not exceed five crore rupees and in all other cases the rate of Income- tax shall be thirty per cent of the total income.

In order to provide relief to newly setup domestic companies engaged solely in the business of manufacture or production of article or thing, it is proposed to amend the Act by way of insertion of new section 115BA, to provide that the income-tax payable in respect of the total income of a domestic company for any previous year relevant to the assessment year beginning on or after the 1st day of April, 2017 shall be computed @ 25% at the option of the company, if, -

(i) the company has been setup and registered on or after 1st day of March, 2016;
(ii) the company is engaged in the business of manufacture or production of any article or thing and is not engaged in any other business;
(iii) the company while computing its total income has not claimed any benefit under section 10AA, benefit of accelerated depreciation, benefit of additional depreciation, investment allowance, expenditure on scientific research and any deduction in respect of certain income under Part-C of Chapter-VI-A other than the provisions of section 80JJAA; and
(iv) the option is furnished in the prescribed manner before the due date of furnishing of income.

## 15.3 Insertion of Section 115BBDA: TAXATION OF DIVIDEND IN EXCESS OF RUPEES TEN LAKHS- (Clause 50)

### Proposed Amendment

It is proposed to insert a new section 115BBDA in the Act so as to provide that any income by way of dividend declared, distributed or paid by a domestic

company, in excess of ten lakh rupees shall be chargeable to tax at the rate of ten per cent in the case of an individual, Hindu undivided family or a firm who is a resident in India. It is further proposed to provide that no deduction in respect of any expenditure or allowance or set off of loss shall be allowed in computing the income by way of dividend. The dividend for this provision shall not include the dividend u/s 2(22)(e).

**Reason**

Under the existing provisions of clause (34) of section 10 of the Act, dividend which suffer dividend distribution tax (DDT) under section 115-O is exempt in the hands of the shareholder. Under section 115-O dividends are taxed only at the rate of fifteen percent at the time of distribution in the hands of company declaring dividends. This creates vertical inequity amongst the tax payers as those who have high dividend income are subjected to tax only at the rate of 15% whereas such income in their hands would have been chargeable to tax at the rate of 30%. With a view to rationalize the tax treatment provided to income by way of dividend, it is proposed to amend the Income-tax Act so as to provide that any income by way of dividend in excess of Rs. 10 lakh shall be chargeable to tax in the case of an individual, Hindu undivided family (HUF) or a firm who is resident in India, at the rate of ten percent. The taxation of dividend income in excess of ten lakh rupees shall be on gross basis.

## 15.4 Amendment to Section 115BBE TAXATION OF UNEXPLAINED CREDITS, INVESTMENTS ETC- (Clause 51)

**Existing Provision**

Sub-section *(1)* of the section 115BBE, *inter alia*, provides that the income relating to the unexplained cash credits (section 68), Unexplained Investments (section 69), Unexplained Money (section 69A), amount of investments not fully disclosed (section 69B) Unexplained expenditure (Section 69C) or amount borrowed on hundi (Section 69D) are taxable at the rate of thirty per cent. Sub-section *(2)* of the said section 115BBE provides that no deduction in respect of any expenditure or allowances in relation to income referred to in the aforesaid sections shall be allowable.

**Proposed Amendments**

It is proposed to amend the said sub-section *(2)* of section 115BBE so as to provide that the set off of any loss shall also be not allowable in respect of income under the aforesaid sections.

**Reason**

Currently, there is uncertainty on the issue of set-off of losses against income referred in section 115BBE of the Act. The matter has been carried to judicial forums and courts in some cases has taken a view that losses shall not be allowed to be set-off against income referred to in section 115BBE. However, the current language of section 115BBE of the Act does not convey the desired intention and as a result the matter is litigated. In order to avoid unnecessary litigation, it is proposed to amend the provisions of the sub-section (2) of section 115BBE to expressly provide that no set off of any loss shall be allowable in respect of income under the sections 68 or section 69 or section 69A or section 69B or section 69C or section 69D.

## 15.5 Insertion of Section 115BBF: CONCESSIONAL TAXATION OF INCOME ON PATENTS - (Clause 52)

**Proposed Amendment**

A new section 115BBF is proposed to be inserted in the Income-tax Act to provide that where the total income of the eligible assessee includes any income by way of royalty in respect of a patent developed and registered in India, then such royalty shall be taxable at the rate of ten per cent (plus applicable surcharge and cess) on the gross amount of royalty. No expenditure or allowance in respect of such royalty income shall be allowed under the Act. For the purpose of this concessional tax regime an eligible assessee means a person resident in India, who is the true and first inventor of the invention and whose name is entered on the patent register as the patentee in accordance with Patents Act, 1970 and includes every such person, being the true and the first inventor of the invention, where more than one person is registered as patentee under Patents Act, 1970 in respect of that patent.

**Reason**

In order to encourage indigenous research & development activities and to make India a global R & D hub, the Government has decided to put in place a concessional taxation regime for income from patents. The aim of the concessional taxation regime is to provide an additional incentive for companies to retain and commercialize existing patents and to develop new innovative patented products. This will encourage companies to locate the high-value jobs associated with the development, manufacture and exploitation of patents in India. The Organization for Economic Cooperation and Development (OECD) has recommended, in Base Erosion and Profit Shifting (BEPS) project under Action Plan 5, the nexus approach which prescribes that income arising from exploitation of Intellectual property (IP) should be attributed and taxed in the jurisdiction where substantial research & development (R&D) activities are undertaken rather than the jurisdiction of legal ownership only.

## 16. SPECIAL PROVISIONS RELATING TO CERTAIN COMPANIES

**Amendment to Section 115JB : BOOK PROFITS FOR CONCESSIONAL TAXATION OF INCOME ON PATENTS- (Clause 53)**

**Proposed Amendment**

It is proposed to amend section 115JB of the Income-tax Act relating to special provision for payment of tax by certain companies by inserting a new clause (fd) in Explanation 1 to sub-section (1) of the aforesaid section so as to provide that the book profit shall be increased by an amount or amounts of expenditure relatable to income, by way of royalty in respect of patent chargeable to tax in accordance with the provisions of section 115BBF. It is further proposed to insert a new clause (iig) in the long line to the said Explanation 1 so as to provide that the amount of income, by way of royalty in respect of patent chargeable to tax in accordance with the provisions of section 115BBF, shall be reduced from the book profit, if any such amount is credited to the profit or loss account.

**Amendment to Section 115JB : APPLICABILITY OF MINIMUM ALTERNATE TAX (MAT) ON FOREIGN COMPANIES FOR THE PERIOD PRIOR TO 01.04.2015.**

**Existing Provision:**

Under the existing provisions contained in sub-section (1) of the 115JB in case of a company, if the tax payable on the total income as computed under the Income-tax Act, is less than eighteen and one-half per cent of its book profit, such book profit shall be deemed to be the total income of the assessee and the tax payable by the assessee for the relevant previous year shall be eighteen and one-half per cent of its book profit. Issues were raised regarding the applicability of this provision to Foreign Institutional Investors (FIIs) who do not have a permanent establishment (PE) in India. Vide Finance Act, 2015, the provisions of section 115JB were amended to provide that in case of a foreign company any income chargeable at a rate lower than the rate specified in section 115JB shall be reduced from the book profits and the corresponding expenditure will be added back. However, since this amendment was prospective w.e.f. assessment year 2016-17, the issue for assessment year prior to 2016-17 remained to be addressed.

**Proposed Amendments**

An *Explanation* is proposed to be inserted so as to provide that the provisions of the said section 115JB, shall not be applicable and shall be deemed never to have been applicable to an assessee, being a foreign company, if––

*(i)* the assessee is a resident of a country or a specified territory with which India has an agreement referred to in sub- section *(1)* of section 90 or the Central Government has adopted any agreement under sub-section *(1)* of section 90A and the assessee does not have a permanent establishment in India in accordance with the provisions of such agreement; or

*(ii)* the assessee is a resident of a country with which India does not have an agreement referred to in clause *(i)* and the assessee is not required to seek registration under any law for the time being in force relating to companies.

**Effective Date**

This amendment will take effect from 1st April, 2001 and will, accordingly, apply in relation to the assessment year 2001-02 and subsequent assessment years.

**Amendment to Section 115JB : APPLICABILITY OF MINIMUM ALTERNATE TAX (MAT) ON INTERNATIONAL FINANCE SERVICE CENTRE**

**Existing Provision:**

Under the existing provisions of the 115JB in case of a company, if the tax payable on the total income as computed under the Income-tax Act, is less than eighteen and one-half per cent of its book profit, such book profit shall be deemed to be the total income of the assessee and the Minimum Alternate Tax (MAT) payable by the assessee for the relevant previous year shall be eighteen and one-half per cent of such book profit.

**Proposed Amendments**

It is proposed to insert a new sub- section (7) in the said section so as to provide that in case of a company, being a unit of an International Financial Services Centre and deriving its income solely in convertible foreign exchange, the rate of tax under section 115JB shall be nine per cent.

## 17. Special Provisions relating to foreign company said to be resident in India -(Clause 54)

New Chapter XII-BC have been introduced to provide a transition mechanism for a company which is incorporated outside India and has not earlier been assessed to tax in India. New Section 115JH has been inserted under new chapter XII-BC.

**Proposed Amendment**

It is proposed wherein the foreign company is treated as resident in India under section 6 and such foreign company is not a resident in India in any earlier previous year, then the conditions relating to computation of total income, treatment of unabsorbed depreciation, set off or carry forward and set off of losses, collection and recovery and special provisions relating to avoidance of tax shall apply with such exceptions, modifications and adaptations as may be specified in the notification. It is also provided that these transition provisions would also cover any subsequent previous year up to the date of determination of POEM in an assessment proceeding. Once the transition is complete, then normal provision of the Act would apply.

It is also provided that in case of any benefit, exemption or relief has been claimed and granted to foreign company according to this proposed provisions and subsequently there is failure to comply with any of the conditions specified in the notification then such benefit, exemption or relief shall be deemed to have been wrongly allowed and the Assessing Officer has been given the power to re-

compute the total income of the assessee as if exceptions, modifications and adaptations did not apply and the provisions of section 154 shall apply thereto and the period of four years shall be reckoned from the end of the previous year in which the assessee fails to comply with the conditions.

**Reason**

The provisions of section 6 of the Act provide for conditions in which residence in India is determined in case of different category of persons. Section 6(3) deals with conditions to be satisfied for a company to be treated as resident in India in any previous year. Prior to amendment of section 6(3) by the Finance Act 2015, a company was said to be resident in India in any previous year if it was an Indian company or during that year the control and management of its affairs was situated wholly in India. The Finance Act, 2015 amended the above provision so as to provide that a company would be resident in India in any previous year if it is an Indian company or its Place of Effective Management (POEM) in that year is in India. The POEM was defined to mean a place where key management and commercial decisions that are necessary for the conduct of the business of an entity as a whole are in substance made.

In the context of implementation of POEM based residence rule, certain issues, relating to the applicability of current provisions of the Act to a company which is incorporated outside India and has not earlier been assessed to tax in India, have arisen. In particular, the issues relate to applicability of specific provisions of the Act relating to Advance tax payment, applicability of TDS provisions, computation of total income, set off of losses and manner of application of transfer pricing regime. These provisions have compliance requirements which would not have been undertaken by the company at relevant time due to absence of any such requirement under tax laws of country of incorporation of such company. Similarly, issues of computation of depreciation also arise when in earlier years it has not been subject to computation under the Act.

Problems highlighted also arise due to the fact that a company may be claiming to be a foreign company not resident in India but in the course of assessment, it is held to be resident based on POEM being in fact in India. This determination would be well after closure of the previous year and it may not be possible for company to undertake many of procedural requirements. Representations have also been made by stakeholders that the implementation of POEM be deferred by a year, by which time clarity regarding guidelines and applicability of other provisions of the Act would be in place.

## 18 SPECIAL PROVISIONS RELATING TO TAX ON DISTRIBUTED PROFITS OF DOMESTIC COMPANY

### Amendment to Section 115-O : EXEMPTION FROM DIVIDEND DISTRIBUTION TAX (DDT) ON DISTRIBUTION MADE BY AN SPV TO BUSINESS TRUST -(Clause 55 & 61)

### Existing Provisions:-

In respect of taxation of business trusts comprising of Real Estate Investment Trust (REITs) and Infrastructure Investment Trust (Invits) regulated by SEBI a specific taxation regime has been incorporated in the Act. Under this regime, the multiple taxation due to interposition of business trust is avoided. Under the SEBI regulation, these business trusts can hold the income generating asset either directly or through a Special Purpose Vehicle (SPV). The SPV can be a company or an LLP. Under SEBI Regulation, SPV is defined to mean any company or LLP in which REIT holds or proposes to hold controlling interest which is not less than fifty percent of the equity share capital or interest. The SPV should hold at least 80% of the assets in properties and not invest in other SPV. The existing tax regime provides that in case of REITs, the income by way of interest paid by SPV being a company to REIT is given pass through i.e. it is not taxed at the level of REIT but in the hands of respective investors of REIT. The rental income from directly held assets by REIT is also allowed a pass through. In respect of assets held through an SPV, if SPV is a company then the company pays normal corporate tax and thereafter when the income is distributed to the REIT being a shareholder, it suffers DDT which is paid by the SPV and thereafter the income is exempt both in the hands of REIT and also its investors. In case of Invits, there is a similar regime with only exception being that there is no pass through for Invits holding income generating assets directly as normally such large infrastructure projects are not held directly in the trust but are held through an SPV. As an incentive in the case of sponsor (the person setting up trust), capital gain arising at time of swap of its shareholding in SPV for units of business trust is deferred both under normal provisions and from applicability of MAT. Such gains get taxed only after actual sale of units.

### Proposed Amendment:

The salient features of proposed amendments are-

(a) exemption from levy of DDT in respect of distributions made by SPV to the business trust;
(b) such dividend received by the business trust and its investor shall not be taxable in the hands of trust or investors;
(c) the exemption from levy of DDT would only be in the cases where the business trust either holds 100% of the share capital of the SPV or holds all of the share capital other than that which is required to be held by any other entity as part of any direction of any Government or specific requirement of any law to this effect or which is held by Government or Government bodies; and
(d) the exemption from the levy of DDT would only be in respect of dividends paid out of current income after the date when the business trust acquires the shareholding referred in (c) above in the SPV. The dividends paid out of accumulated and current profits upto this date shall be liable for levy of DDT as and when any dividend out of these profits is distributed by the company either to the business trust or any other shareholder.

**Effective Date**

The amendment will take effect from 1st June, 2016

**Amendment to Section 115-O : EXEMPTION FROM DIVIDEND DISTRIBUTION TAX (DDT) ON INTERNATIONAL FINANCE SERVICE CENTRE- (Clause 55)**

**Proposed Amendment:**

it is proposed to amend section 115-O so as to provide that no tax on distributed profits shall be chargeable in respect of the total income of a company being a unit located in International Financial Services Centre, deriving income solely in convertible foreign exchange, for any assessment year on any amount declared, distributed or paid by such company, by way of dividends (whether interim or otherwise) on or after the 1st day of April, 2017 out of its current income, either in the hands of the company or the person receiving such dividend.

**19. Special Provisions relating to Tax on Distributed Income of Domestic Company for Buy Back of Shares**

**Amendment to Section 115QA : TAX ON DISTRIBUTED INCOME TO SHAREHOLDERS -(Clause 56)**

**Existing Provisions:-**

The existing provisions of section 115QA of the Act provide for the levy of additional Income-tax @ 20% of the distributed income on account of buy back of unlisted shares by a company. The distributed income has been defined in the section to mean the consideration paid by the company on buy back of shares as reduced by the amount which was received by the company for issue of such shares. Buyback has been defined to mean the purchase of a company of its own shares in accordance with the provisions of section 77A of the Companies Act, 1956.

**Proposed Amendments**

It is proposed to amend section 115QA to provide that the provisions of this section shall apply to any buy back of unlisted share undertaken by the company in accordance with the provisions of the law relating to the Companies and not necessarily restricted to section 77A of the Companies Act, 1956. It is further proposed to provide that for the purpose of computing distributed income, the amount received by the Company in respect of the shares being bought back shall be determined in the prescribed manner. The rules would thereafter be framed to provide for manner of determination of the amount in various circumstances including shares being issued under tax neutral reorganisations and in different tranches.

**Reason**

Recently doubts have been raised regarding the effect of buybacks undertaken by the company under different provisions of the Companies Act, 1956 or the Companies Act, 2013 and applicability of provisions of section 115QA to such transactions. An issue has also been raised regarding lack of clarity in determination of consideration received by the company at the time of issue of shares being bought back by the company. There are situations where shares may have been issued by the company in tranches, for different considerations, at different point of time or may have been issued in lieu of existing shares of another company under amalgamation, merger or demerger.For the purposes of section 115QA, it is the effect of buyback being in the nature of distribution of income which is relevant rather than particular provision of the law relating to companies under which it has been undertaken. Further, lack of clarity in the manner of determination of consideration received by the company would lead to

avoidable disputes and also presents a tax arbitrage opportunity of scaling up of consideration particularly under a tax neutral business reorganisation followed by buyback of shares.In order to provide clarity and remove any ambiguity on the above issues, the above amendment has been proposed.

**Effective Date**

The amendment will take effect from 1st June, 2016

## 20. SPECIAL PROVISIONS RELATING TO TAX ON DISTRIBUTED INCOME BY SECURITISATION TRUST

### 20 Amendment to Section 115TA : NEW TAXATION REGIME FOR SECURITISATION TRUST AND ITS INVESTORS -(Clause 57, 58, 59)

**Existing Provision:**

Under the existing provisions of Chapter-XII-EA of the Act consisting of sections 115TA, 115TB and 115TC, special taxation regime in respect of income of the securitisation trusts and the investors of such trusts has been provided. The regime provides that income distributed by the securitisation trust to its investors shall be subject to a levy of additional tax to be paid by the securitisation trust within 14 days of distribution of income. The distribution tax shall be paid @ 25% if the distribution is made to an individual or a Hindu undivided family (HUF) and @ 30% if the distribution is to others. Further, no distribution tax is to be levied if the distribution is made to an exempt entity. Consequent to the levy of distribution tax, the income of the investor, received from the securitisation trust, is exempt under section 10(35A) of the Act and the income of securitisation trust itself is exempt under section 10(23DA) of the Act.

**Proposed Amendment:**

The salient features of the proposed amendment are:-

(i) The new regime shall apply to securitisation trust being an SPV defined under SEBI (Public Offer and Listing of Securitised Debt Instrument) Regulations, 2008 or SPV as defined in the guidelines on securitisation of standard assets issued by RBI or being setup by a securitisation company or a reconstruction company in accordance with the SARFAESI Act;

(ii) The income of securitisation trust shall continue to be exempt. However, exemption in respect of income of investor from securitisation trust would not be available and any income from securitisation trust would be taxable in the hands of investors;

(iii) The income accrued or received from the securitisation trust shall be taxable in the hands of investor in the same manner and to the same extent as it would have happened had investor made investment directly in the underlying assets and not through the trust;

(iv) Tax deduction at source shall be effected by the securitisation trust at the rate of 25% in case of payment to resident investors which are individual or HUF and @ 30% in case of others. In case of payments to non-resident investors, the deduction shall be at rates in force;

(v) The facility for the investors to obtain low or nil deduction of tax certificate would be available; and

(vi) The trust shall provide breakup regarding nature and proportion of its income to the investors and also to the prescribed income-tax authority.

Further, it is proposed to provide that the current regime of distribution tax shall cease to apply in case of distribution made by securitisation trusts with effect from 01.06.2016.

**Reason**

It has been represented that under the current regime, the trusts set up by reconstruction companies or the securitisation companies are not covered although such trusts are also engaged in securitisation activity. These companies are established for the purposes of the Securitisation and Reconstruction of Financial Assets and Enforcement of Security Interest Act, 2002 (SARFAESI Act) and their activities are regulated by the Reserve Bank of India (RBI). It has been represented that the existing regime providing for final levy in the form of distribution tax is tax inefficient for the investors specially the banks and financial institutions. Disallowance of expenditure in respect of income received from securitisation trust increases the effective rate of taxation. Further, the non-resident and resident investors are unable to take benefits of their specific tax status. In order to rationalise the tax regime for securitisation trust and its investors, and to provide tax pass through treatment, it is proposed to amend

the provisions of the Act to substitute the existing special regime for securitisation trusts by a new regime.

**Effective Date**

The amendment will take effect from 1st June, 2016

## 21. SPECIAL PROVISION RELATING TO TAX ON ACCRETED INCOME OF CERTAIN TRUST AND INSTITUTION

**Insertion of New Chapter XII-EB consisting of new sections 115TD, 115TE and 115TF Section 115-O : LEVY OF TAX WHERE THE CHARITABLE INSTITUTION CEASES TO EXIST OR CONVERTS INTO A NON-CHARITABLE ORGANIZATION. -(Clause 60)**

**Existing Provision:**

The existing provisions of section 2(24) of the Act define "Income" in an inclusive manner. Any voluntary contribution received by a charitable trust or institution or a fund is included in the definition of income. Sections 11 and 12 of the Act provide for exemption to trusts or institutions in respect of income derived from property held under trust and voluntary contributions, subject to various conditions contained in the said sections. The primary condition for grant of exemption is that the income derived from property held under trust should be applied for the charitable purposes, and where such income cannot be applied during the previous year, it has to be accumulated and invested in the modes prescribed and applied for such purposes in accordance with various conditions provided in the section. If the accumulated income is not applied in accordance with the conditions provided in the said section within a specified time, then such income is deemed to be taxable income of the trust or the institution. Section 12AA provides for registration of the trust or institution which entitles them to be able to get the benefit of sections 11 and 12. It also provides the circumstances under which the registration can be cancelled. Section 13 of the Act provides for the circumstances under which exemption under section 11 or 12 in respect of whole or part of income would not be available to a trust or institution.

**Proposed Amendment:**

It is proposed to amend the provisions of the Act and introduce a new Chapter to provide for levy of additional income-tax in case of conversion into, or merger

with, any non-charitable form or on transfer of assets of a charitable organisation on its dissolution to a non-charitable institution. The elements of the regime are: -

(i) The accretion in income (accreted income) of the trust or institution shall be taxable on conversion of trust or institution into a form not eligible for registration u/s 12 AA or on merger into an entity not having similar objects and registered under section 12AA or on non-distribution of assets on dissolution to any charitable institution registered u/s 12AA or approved under section 10(23C) within a period twelve months from dissolution.

(ii) Accreted income shall be amount of aggregate of total assets as reduced by the liability as on the specified date. The method of valuation is proposed to be prescribed in rules. The asset and the liability of the charitable organisation which have been transferred to another charitable organisation within specified time will be excluded while calculating accreted income.

(iii) The taxation of accreted income shall be at the maximum marginal rate.

(iv) This levy shall be in addition to any income chargeable to tax in the hands of the entity.

(v) This tax shall be final tax for which no credit can be taken by the trust or institution or any other person, and like any other additional tax, it shall be leviable even if the trust or institution does not have any other income chargeable to tax in the relevant previous year.

(vi) In case of failure of payment of tax within the prescribed time a simple interest @ 1% per month or part of it shall be applicable for the period of non-payment.

(vii) For the purpose of recovery of tax and interest, the principal officer or the trustee and the trust or the institution shall be deemed to be assessee in default and all provisions related to the recovery of taxes shall apply. Further, the recipient of assets of the trust, which is not a charitable organisation, shall also be liable to be held as assessee in default in case of non-payment of tax and interest. However, the recipient's liability shall be limited to the extent of the assets received.

**Reason**

A society or a company or a trust or an institution carrying on charitable activity may voluntarily wind up its activities and dissolve or may also merge with any other charitable or non-charitable institution, or it may convert into a non-charitable organization. In such a situation, the existing law does not provide any clarity as to how the assets of such a charitable institution shall be dealt with. Under provisions of section 11 certain amount of income of prior period can be brought to tax on failure of certain conditions. However, there is no provision in the Act which ensure that the corpus and asset base of the trust accreted over period of time, with promise of it being used for charitable purpose, continues to be utilised for charitable purposes and is not used for any other purpose. In the absence of a clear provision, it is always possible for charitable institutions to transfer assets to a non-charitable institution. There is a need to ensure that the benefit conferred over the years by way of exemption is not misused and to plug the gap in law that allows the charitable trusts having built up corpus/wealth through exemptions being converted into non-charitable organisation with no tax consequences. In order to ensure that the intended purpose of exemption availed by trust or institution is achieved, a specific provision in the Act is required for imposing a levy in the nature of an exit tax which is attracted when the organization is converted into a non-charitable organization or gets merged with a non-charitable organization or does not transfer the assets to another charitable organisation. Accordingly, the above new provisions have been proposed.

**Effective Date**

The amendment will take effect from 1st June, 2016

These amendments will take effect from 1st June 2016.

## 23. PROCEDURE FOR ASSESSMENT

### 23.1 Amendment to Section 139 : Return of Income -(Clause 65)

**Existing Provision**

**Section 139(1)**

Sixth proviso to Section 139(1) provides that Total income of any person or of any other person in respect of which person is assessable during the previous year, without giving effect to provisions of section 10A or section 10B or section 10BA or Chapter VI-A, exceeds the maximum amount which is not chargeable to income tax shall be liable to furnish return on or before the due date.

**Section 139(3)**

Sub-section (3) of the said section provides that if any person who has sustained a loss in any previous year under the head profits and gains of business or profession or under the head capital gains and claims that the loss or any part thereof should be carried forward under sub-section (1) of section 72, or sub-section (2) of section 73, or sub-section (1) or sub-section (3) of section 74 or sub-section (3) of section 74A, he may furnish, within the time allowed under sub-section (1), a return of loss in the prescribed form and verified in the prescribed manner and containing such other particulars as may be prescribed, and all the provisions of this Act shall apply as if it were a return under sub-section (1).

**Section 139(4)**

Existing provisions of sections 139 (4) provides that a person who has not furnished a return within the time allowed to him under section 139(1), or in response to notice under section 142 (1), may furnish the return for any previous year at any time before the expiry of one year from the end of the relevant assessment year or before the completion of the assessment, whichever is earlier.

**Section 139(5)**

A return filed u/s 139(1) or in response to notice u/s 142(1) can be revised at any time before one year from the end of the relevant assessment year or completion of assessment, whichever is earlier.

**Section 139(9) [Explanation (aa)**

Return of income shall be regarded as defective unless the self-assessment tax together with interest, if any, payable in accordance with the provisions of section140A, has been paid on or before the date of furnishing of return.

**Proposed Amendments**

**Section 139(1)**

It is proposed to amend the sixth proviso to section 139(1) to include that if a person during the previous year earns income which is exempt under section 10(38) and income of such person without giving effect to the said clause of section 10 exceeds the maximum amount which is not chargeable to tax, shall also be liable to file return of income for the previous year within the due date.

**Section 139(3)**

It is proposed to amend sub-section (3) of the said section so as to give the reference of sub-section (2) of section 73A in the said section.

**Reason**

The existing provisions of section 73A of the Act provide that any loss, computed in respect of any specified business referred to in section 35AD shall not be set off except against profits and gains, if any, of any other specified business. Further, section 80 of the Act inter-alia provides that a loss which has not been determined in pursuance of return filed in accordance with the provisions of sub-section (3) of section 130, shall not be carried forward and set-off under sub-section (1) of section 72 or sub-section (2) of section 73 or sub-section (1) or sub-section (3) or section 74 or sub-section 74A.

In accordance with the scheme of the Act, this loss is to be allowed if the return is filed within the specified time i.e. by the due date of filing of the return of the income as provided in section 80 for other losses determined under the Act.

Accordingly, it is proposed to amend section 80 so as to provide that the loss determined as per section 73A of the Act shall not be allowed to be carried forward and set off if such loss has not been determined in pursuance of a return filed in accordance with the provisions of sub-section (3) of section 139.

It is also proposed to amend the said sub-section (3) of section 139 so as to give reference of sub-section (2) of section 73A in the said sub-section.

This amendment will take effect retrospectively from 1st April, 2016 and will, accordingly, apply in relation to the assessment year 2016-17 and subsequent years.

**Section 139(4)**

It is proposed to substitute section 139 (4) to provide that any person who has not furnished a return within the time allowed to him under section 139 (1), may furnish the return for any previous year at any time before the end of the relevant assessment year or beforethe completion of the assessment, whichever isearlier.

Now Assessee has to file return of Income within one year of end of financial year.

**Section 139(5)**

Return filed u/s 139(1) as well as u/s 139(4) can also be revised at any time before one year from the end of the relevant assessment year or completion of assessment, whichever is earlier. However, return filed in response to notice u/s 142(1) cannot be revised.

**Section 139(9)**

It is proposed to omit clause (aa) of the Explanation to section 139 (9) to provide that return which is otherwise valid would not be treated defective merely because self-assessment tax and interest payable in accordance with the provisions of section 140A has not been paid on or before the date of furnishing of the return.

**Reason**

To rationalise the time allowed for filing of returns, completion of proceedings and realisation of revenue without undue compliance burden on the taxpayer and to promote the culture of compliance.

## 23.2 Amendment to Section 143 : Assessment -(Clause 66)

**Existing provision – Section 143(1)(a)**

Section 143 of the Income tax provides for provision relating to assessment. Clause (a) of sub-section (1) of the aforesaid section provides that a return filed is to be processed and total income or loss is computed after making the adjustments on account of any arithmetical error in the return or on account of an incorrect claim, if such incorrect claim is apparent from any information in the return.

**Proposed Amendment**

Now, the scope of summary assessment is expanded to include within its scope, the following adjustment as well:

(iii) disallowance of loss claimed, if return of the previous year for which set off of loss is claimed was furnished beyond the due date specified under sub-section (1) of section 139;

(iv) disallowance of expenditure indicated in the audit report but not taken into account in computing the total income in the return;

(v) disallowance of deduction claimed under sections 10AA, 80-IA, 80-IAB, 80-IB, 80-IC, 80-ID or section 80-IE, if the return is furnished beyond the due date specified under sub-section (1) of section 139; or

(vi) addition of income appearing in Form 26AS or Form 16A or Form 16 which has not been included in computing the total income in the return:

It is further proposed to provide an opportunity to the assessee, before making any adjustment under clause (a) of sub-section (1) of section 143 to explain and rectify the same within thirty days of issuance of such intimation and the response so received be considered before making such adjustments. In case no response is received within such time, the adjustment of the amount indicated in the intimation be made.

**Reason**

In order to expeditiously remove the mismatch between the return and the information available with the Department, it is proposed to expand the scope of adjustments that can be made at the time of processing of returns under sub-section (1) of section, it is proposed that such adjustments can be made based on the data available with the Department in the form of audit report filed by the assessee, returns of earlier years of the assessee, 26AS statement, Form 16, and Form 16A. However, before making any such adjustments, in the interest of natural justice, intimation shall be given to the assessee either in writing or through electronic mode requiring him to respond to such adjustments. The response received, if any, will be duly considered before making any adjustment. However, if no response is received within thirty days of issue of such intimation, the processing shall be carried out incorporating the adjustments.

**Effective Date**

The amendment will take effect from 1st June 2016

**Existing Provision – Section 143(1D)**

**36. EQUALISATION LEVY :**

**Insertion of new Chapter VIII through Finance Bill 2016 - (Clause 22 & 160 to 177)**

**Proposed Provision**

The Finance Bill, 2016 seeks to insert new Chapter VIII dealing with levy, collection and recovery of equalisation levy. The proposed new chapter VIII extends to whole of India except the state of Jammu and Kashmir.

Clause 160 of the Bill provides that the said chapter shall come into force on such date as the Central Government may, by notification in the Official Gazette,

appoint, and shall apply to consideration received or receivable for specified service provided on or after commencement of this chapter. Specified Service is defined to mean online advertisement, any provision for digital advertising space, or any other facility or service for the purpose of online advertisement and includes any other service as may be notified.

Clause 161 of the Bill seeks to define certain terms and expressions used in this Chapter.

Sub-clause (1) of clause 162 of the Bill seeks to make a provision for the charging of equalisation levy at the rate of six per cent of the amount of consideration for specified services received or receivable by a non-resident from a person resident in India and carrying on business or profession or from a non-resident having a permanent establishment in India. Sub-clause (2) provides that no such levy shall be made, if the non-resident service provider has a permanent establishment in India and income from such specified services are effectively connected to this permanent establishment or if such consideration is not for the purpose of carrying out business or profession or aggregate amount of consideration for specified services received or receivable does not exceed one lakh rupees in any previous year.

Clause 163 of the Bill provides for collection and recovery of equalisation levy by way of deduction from the amount paid or payable to the non-resident in respect of specified services. Sub-clause (2) provides that the amount of equalisation levy so deducted by the payer has to be paid to the credit of the Central Government by 7$^{th}$ day of the month following the month in which the equalisation levy is collected. Sub-section (3) of clause 163 also provides that if any assessee fails to deduct the levy would still be liable to pay the levy to Central Government in accordance with sub-clause(2).

Clauses 164 to 172 of the Bill are procedural in nature relating to the procedures for furnishing of statement, processing, refund, rectification of mistakes, payment of interest, imposition of penalty & filing of appeals before CIT (Appeals) & the Appellate Tribunal. The provisions of section 249 to 251 of the Income-tax Act, shall as far as maybe, shall apply to appeals before CIT (Appeals). Similarly, the provisions of sections 252 to 255 of the Income tax Act shall, as far as may be, apply to appeals before Appellate Tribunal.

In order to avoid double taxation, it is proposed to make a consequential amendment under section 10 of the Act to provide exemption for any income arising from providing specified services on which equalisation levy is chargeable.

Further, it is also proposed to confer the power on the Central Government to make rules for the purposes of carrying out the provisions of this Chapter and laying every rule made under this Chapter before each House of Parliament.

Clause 22 seeks to insert sub- section (ib) to Section 40 w.e.f 1st June, 2016 to provide as under:-

Any consideration paid or payable to a non-resident for a specified service on which equalisation levy is deductible under the provisions of Chapter VIII of the Finance Act, 2016, and such levy has not been deducted or after deduction, has not been paid on or before the due date specified in sub-section (*1*) of section 139:

Provided that where in respect of any such consideration, the equalisation levy has been deducted in any subsequent year or has been deducted during the previous year but paid after the due date specified in sub-section (*1*) of section 139, such sum shall be allowed as a deduction in computing the income of the previous year in which such levy has been paid;".

**Reason**

With the expansion of information and communication technology, the supply and procurement of digital goods and services have undergone exponential expansion everywhere, including India. The digital economy is growing at ten per cent per year, significantly faster than the global economy as a whole.

Currently in the digital domain, business may be conducted without regard to national boundaries and may dissolve the link between an income-producing activity and a specific location. From a certain perspective, business in digital domain doesn't seem to occur in any physical location but instead takes place in the nebulous world of "cyberspace." Persons carrying business in digital domain could be located anywhere in the world. Entrepreneurs across the world have been quick to evolve their business to take advantage of these changes. It has also made it possible for the businesses to conduct themselves in ways that did not exist earlier, and given rise to new business models that rely more on digital and telecommunication network, do not require physical presence, and derives substantial value from data collected and transmitted from such networks.

These new business models have created new tax challenges. The typical direct tax issues relating to e-commerce are the difficulties of characterizing the nature of payment and establishing a nexus or link between a taxable transaction, activity and a taxing jurisdiction, the difficulty of locating the transaction, activity and identifying the taxpayer for income tax purposes. The digital business fundamentally challenges physical presence-based permanent establishment rules. If permanent establishment (PE) principles are to remain effective in the new economy, the fundamental PE components developed for the old economy i.e. place of business, location, and permanency must be reconciled with the new digital reality.

The Organization for Economic Cooperation and Development (OECD) has recommended, in Base Erosion and Profit Shifting (BEPS) project under Action Plan 1, several options to tackle the direct tax challenges which include modifying the existing Permanent Establishment (PE) rule to include that where an enterprise engaged in fully de-materialized digital activities would constitute a PE if it maintained a significant digital presence in another country's economy. It further recommended a virtual fixed place of business PE in the concept of PE i,e creation of a PE when the enterprise maintains a website on a server of another enterprise located in a jurisdiction and carries on business through that website. It also recommended to impose of a final withholding tax on certain payments for digital goods or services provided by a foreign e-commerce provider or imposition of a equalisation levy on consideration for certain digital transactions received by a non-resident from a resident or from a non-resident having permanent establishment in other contracting state.

Considering the potential of new digital economy and the rapidly evolving nature of business operations it is found essential to address the challenges in terms of taxation of such digital transactions as mentioned above.

Hence, it is proposed to insert a new Chapter titled "Equalisation Levy" in the Finance Bill, to provide for an equalisation levy of 6 % of the amount of consideration for specified services.

**Effective Date**

This Chapter will take effect from the date appointed in the notification to be issued by the Central Government.

## 39. THE DIRECT TAX DISPUTE RESOLUTION SCHEME, 2016 – (Clauses 197 – 208)

These are completely new provisions introduced for the first time.

**Proposed Amendment**

The Finance Bill, 2016 has sought to introduce a new and alternate mechanism to resolve disputes under the Direct Taxes laws. This scheme is to be called as the Direct Tax Dispute Resolution Scheme, 2016.

The scheme defines, inter alia, two terms, viz. "specified tax" and "tax arrear". "Specified tax" pertains to a tax dispute which is pending as on 29th February, 2016, as a result of retrospective amendment. Whereas, "tax arrear" means tax, interest or penalty determined under the Income-tax Act or the Wealth-tax Act, 1957 in respect of which appeal is pending before the Commissioner of Income-tax (Appeals) or the Commissioner of Wealth-tax (Appeals) as on the 29th day of February, 2016.

Under this scheme, the assessee may file a declaration with the designated authority (i.e. an officer not below the rank of a Commissioner of Income-tax and notified by the Principal Chief Commissioner) in the prescribed form and verified in such manner as may be prescribed. In case the declaration is with respect to "tax arrear" being interest and penalty, the pending appeal would be deemed to have been withdrawn by the assessee and the assessee would be liable to pay the whole of the disputed tax and interest thereon till the date of assessment or reassessment, as the case may be, if disputed tax is up to Rs. 10 lakhs. If the disputed tax exceeds Rs. 10 lakhs, the pending appeal would be deemed to have been withdrawn and the assessee would be liable to pay the whole of the disputed tax and interest thereon till the date of assessment or reassessment along with 25% of the minimum penalty leviable. If the impugned tax arrear is penalty, the pending appeal shall be deemed to have been withdrawn and the assessee would be liable to pay 25% of the minimum penalty leviable and the tax and interest payable on the total income finally determined. On the other hand, if the declaration is with respect to specified tax, the appeal shall be deemed to have been withdrawn and the assessee would be liable to pay the amount of tax so determined.

Where the declaration is in respect of specified tax and the declarant's appeal/ writ petition is pending before any authority, Tribunal or Court, he shall withdraw such appeal or writ petition and furnish proof of such withdrawal along with the declaration. Also, where the declaration is in respect of specified tax and the declarant has initiated any proceeding for arbitration, conciliation or mediation or has given any notice thereof, he shall withdraw such notice or the claim, if any, in such proceedings prior to making the declaration and furnish proof thereof along with the declaration. The declarant shall also furnish an undertaking waiving his right to seek or pursue any remedy or any claim in relation to the specified tax which may otherwise be available to him. It has also been provided that no appellate authorithy or arbitrator, conciliator or mediator shall proceed to decide any issue relating to the specified tax mentioned in the declaration and in respect of which an order had been made by the designated authority or the payment of the sum determined under that section.

Upon receiving a declaration as mentioned, the designated authority shall determine the amount payable by the declarant in accordance with the

provisions of this Scheme within a period of sixty days from the date of receipt of the declaration. Every such determination by the designated authority will be conclusive as to the matters stated therein and no matter covered by such order shall be re-opened in any other proceeding. The declarant is liable to pay such amount within 30 days and the amount shall not be refundable under any circumstances. Thereafter, the designated authority will grant immunity from instituting any proceedings in respect of an offence under the Income-tax Act or the Wealth-tax Act, immunity from imposition or waiver, of penalty under the two Acts or waiver of interest thereunder.

However, ifs any material particular furnished in the declaration is found to be false at any stage or the declarant violates any of the conditions referred to in this Scheme or the declarant acts in a manner which is not in accordance with the undertaking given by him waiving his right to seek or pursue any remedy or any claim, it shall be presumed as if the declaration was never made under the Scheme and all the consequences under the Income-tax Act or the Wealth-tax Act, as the case may be, under which the proceedings against the declarant are or were pending, shall be deemed to have been revived.

The provisions of the Scheme would not apply:

(a) in respect of tax arrear or specified tax,—

(i) relating to an assessment year in respect of which an assessment has been made under section 153A or 153C of the Income-tax Act or assessment or reassessment for any of the assessment years, in consequence of a search initiated under section 37A or requisition made under section 37B of the Wealth-tax Act if it relates to any tax arrear (i.e. search assessments);

(ii) relating to an assessment or reassessment in respect of which a survey conducted under section 133A of the Income-tax Act or section 38A of the Wealth-tax Act, has a bearing if it relates to any tax arrear;

(iii) relating to an assessment year in respect of which prosecution has been instituted on or before the date of filing of declaration;

(iv) relating to any undisclosed income from a source located outside India or undisclosed asset located outside India;

(v) relating to an assessment or reassessment made on the basis of information received under an agreement referred to in section 90 or section 90A of the Income-tax Act, if it relates to any tax arrear;

(b) to any person in respect of whom an order of detention has been made under the provisions of the Conservation of Foreign Exchange and Prevention of Smuggling Activities Act, 1974; if

(i) such order of detention, being an order to which the provisions of section 9 or section 12A of the said Act do not apply, has not been revoked on the report of the Advisory Board under section 8 of the said Act or before the receipt of the report of the Advisory Board; or

(ii) such order of detention, being an order to which the provisions of section 9 of the said Act apply, has not been revoked before the expiry of the time for, or on the basis of, the review under sub-section (3) of section 9, or on the report of the Advisory Board under section 8, read with sub-section (2) of section 9, of the said Act; or

(iii) such order of detention, being an order to which the provisions of section 12A of the said Act apply, has not been revoked before the expiry of the time for, or on the basis of, the first review under sub-section (3) of that section, or on the basis of the report of the Advisory Board under section 8, read with sub-section (6) of section 12A, of the said Act; or

(iv) such order of detention has not been set aside by a court of competent jurisdiction;

(c) to any person in respect of whom prosecution for any offence punishable under the provisions of the Indian Penal Code, the Unlawful Activities (Prevention) Act, 1967, the Narcotic Drugs and Psychotropic Substances Act, 1985, the Prevention of Corruption Act, 1988 or for the purpose of enforcement of any civil liability has been instituted on or before the filing of the declaration or such person has been convicted of any such offence punishable under any of those Acts;

(d) to any person notified under section 3 of the Special Court (Trial of Offences Relating to Transactions in Securities) Act, 1992.

It is proposed that the Central Government be given the power to issue such orders, instructions and directions for the proper administration of this Scheme to persons employed in the execution of this Scheme shall observe and follow such orders, instructions and directions of the Central Government. In case any difficulty arises in giving effect to the provisions of this Scheme, the Central Government may by order not inconsistent with the provisions of this Scheme remove the difficulty. However, no such order would be made after the expiry of a period of two years from the date on which the provisions of this Scheme come into force.

It is also proposed that the Central Government may make rules for carrying out the provisions of this Scheme.

**Reason**

This rationale of bringing in these provisions as stated in the Memorandum is to reduce the huge backlog of cases and to enable the Government to realise its dues expeditiously.

**Effective Date**

These amendments are proposed to take effect from 1st June, 2016.

# PART B : INDIRECT TAX

## SERVICE TAX

1. **Rate of Tax**

1.1. There has been no change in the basic rate of service tax which was increased to 14% w.e.f. 01.06.2015.

1.2. Effective from 15.11.2015, Swachh Bharat Cess was introduced @ 0.5% of the value of all taxable services. AT that point of time it was clarified that the cess will not be available as CENVAT Credit.

1.3. KrishiKalyan Cess is imposed on all taxable services at the rate of 0.5% on the value of taxable services with the objective of financing and promoting initiatives to improve agriculture. This Cess shall come into force on 01.06.2016. It is clarified that this KKC shall be available as CENVAT Credit.

1.4. On a comparison of the provisions of SBC and KKC, it can be noticed that they are identical, therefore on the point of availability of credit, there appears to be a conflict between the clarifications issued at the time of introduction of SBC and the current clarification. In view of the Karnataka High Court decision in the case of CCE VS Shree Renuka Sugars Limited 2014 (302) E.L.T. 33 (Kar) we believe that the current clarification represents a correct interpretation of law.

1.5. The following table summarizes the recent changes in the tax rates:

| Period | Calculation | Effective Rate |
|---|---|---|
| Upto 31.05.2015 | 12% ST + 0.24% EC + 0.12% SHEC | 12.36% |
| 01.06.2015 to 14.11.2015 | 14% ST | 14.00% |
| 15.11.2015 to 31.05.2016 | 14% ST + 0.5% SBC | 14.50% |
| 01.06.2016 onwards | 14% ST + 0.5% SBC + 0.5% KKC | 15.00% |

1.6. The above effective rates are applicable for normal services. There have been changes in the abatement rates as well which have been explained in the analysis of the respective sectors.

2. **Impact of change in rate**

2.1. The Point of Taxation Rules, 2011 were introduced w.e.f. 01.04.2011. to prescribe the point of time when the tax should be paid and also deal with certain situation of rate changes

2.2. It was realized that the said rules did not have statutory backing and therefore, amendments have been made in section 67A to empower the Central Government to notify rules in this regard. Notification 10/2016 – ST dated 01.03.2016 provides that the said amendments are effective from 01.03.2016. However, this would result in a possible interpretation to say that since prior to 01.03.2016, there was no specific provision enacting the

Point of Taxation Rules, 2011, the constitutional validity of such rules is challengeable.

2.3. During the last year there was a subsumation of EC and SHEC into the basic service tax rate and also an introduction of SBC in addition to the basic service tax rate. It was felt that the point of taxation rules were inadequate to cover the above made changes. Though the FAQ issued at the time of introduction of SBC clarified that Rule 5 of POTR, 2011 would be applicable, the legal validity of the said view was not free from doubt.

2.4. To overcome the above concerns, two Explanations have been added to Rule 5 of Point of Taxation Rules, 2011, wherein it is clarified that the said rule applies also in cases of new levy. The second explanation provides that unless the transaction satisfies the conditions provided in Rule 5, the same shall be taxable. The conditions provided in Rule 5 as reproduced below:

*Where a service is taxed for the first time, then, -*
*(a) no tax shall be payable to the extent the invoice has been issued and the payment received against such invoice before such service became taxable;*
*(b) no tax shall be payable if the payment has been received before the service becomes taxable and invoice has been issued within fourteen days of the date when the service is taxed for the first time.*

2.5. The above explanation raises a fundamental question as to whether a service which has already been provided prior to introduction of levy could be taxed on raising of invoice or receiving payment subsequently. One needs to distinguish between the taxable event (event deciding taxability) vis-à-vis a payment event (event deciding timing of payment). Further, in the case of Collector of C.Ex Hyderabad VsVazir Sultan Tobacco Co Ltd 1996 (83) E.L.T. 3 (SC), it has been held that manufacturing is a taxable event whereas payment of excise duty is at the time of the removal of goods, therefore in a case where goods have been manufactured at the time when they were not excisable, there cannot be a duty liability at the time of removal of such goods.

2.6. Applying similar ratio in case of service tax, the Finance Act, 1994 levies a tax on provision of service i.e. essentially the levy is on provision of service. However, the payment of tax has been shifted at the time of raising of invoice or receipt of consideration by virtue of Point of Taxation Rules, 2011. Based, on the above discussion, it may be important to see whether a rule can impose a tax/new levy in cases where the service is already provided.

2.7. Specific challenges would arise since there have been multiple amendments as highlighted above. A service provider may have raised an invoice on 01.05.2015, when the applicable service tax rate was 12% with EC & SHEC. He would have paid this service tax of 12.36% to the Government treasury irrespective of him receiving the money. If the said consideration is realised after 01.06.2016, the issue of interpreting the above provisions can be challenging.

3. **Amendments in Rate of Interest**

3.1. Effective from 01.10.2014, the rate of interest under service tax law were increased drastically and went all the way upto 30% p.a. Based on various protests and representations against such exorbitant interest rates, the current budget proposes a reduction in rate as under:

| | Current Interest Rate | | Rate effective from date of assent of Finance Bill | | |
|---|---|---|---|---|---|
| | Simple interest rate per annum (Normal Cases) | Simple interest rate per annum (Small Service Providers) | Case where tax is collected and not paid | Normal Cases | Excess collection u/s 73A |
| Rate of Interest | 18%<br>24%<br>30% | 15%<br>21%<br>27% | 24% | 15% | 15% |

3.2. It may be noted that the interest rate on refunds has not been changed. While the reduction in interest rate is welcome, having a differential rate based on collection of tax can result in interpretation and administrative difficulties. The interpretation issue is whether tax collected refers to merely charging of tax in the invoice or actual reaslisation of tax from the customer. In our view, it has to be the actual realization of the tax from the customer

3.3. Based on the said interpretation there could an administrative challenge in the actual computation of interest. For e.g. If an invoice is raised on 01.05.2016 and the money is realized on 07.09.2016 and the payment of service tax is made on 30.10.2016, interest would be payable at the rate of 15% p.a. from 06.06.2016 to 07.09.2016 and at the rate of 24% from 08.09.2016 to 30.10.2016

3.4. When the above exercise is understood from the perspective of volume of operations, possibility of open payments not appropriated against specific services and four revisions in the rate of service tax, it is evident that doing business in India is not easy.

3.5. The interesting aspect to note is that a service provider liable to pay tax collecting and not paying service tax is required to pay interest of 24% p.a. whereas a service provider who is not liable to pay tax but collects tax and delays its payment is liable to pay interest at only 15% p.a.

4. **Government Support Service**

4.1. Currently only support services provided by the Government are liable for payment of service tax. The Finance Act, 2015 had proposed to tax all services provided by Government, however did not notify the date from which the said amendments are effective. Notification 06/2016-ST dated 18.02.2016 was issued to notify 01.04.2016 as the relevant date from when any service by Government shall be liable for payment of service tax.

4.2. Further Notifications have been issued to make corresponding impact on providing the above taxability on Reverse Charge basis. Also the definition of support service as provided earlier has been proposed to be deleted from 01.04.2016.

4.3. Through Notification 07/2016-ST an exemption has been provided for services rendered by the Government to business entities with turnover below Rs. 10 lakhs.

4.4. These amendment brings to prominence the importance of the concept of "service" in contradistinction to the performance of a statutory function. Any function which is a statutory function required to be performed by the Government cannot be considered as a rendition of service. In fact, it is the necessary requirement of the Government to perform that function and the requirement of the citizen to obtain that function

4.5. Therefore the liability of service tax on transactions with Government can be tabulated as under:

| **Transaction** | **Implication of Service Tax** |
|---|---|
| Statutory function carried out the Government | Not liable for service tax as it does not constitute a service |
| Specified Services mentioned in sub-clauses (i), (ii) & (iii) of clause (a) of Section 66D of the Finance Act, 1994 | Liable for service tax under Forward Charge i.e. the Government Department will register, collect and pay the service tax. |
| Other Services to business entities as listed in clause (a) of Section 66D of the Finance Act, 1994 | Liable for service tax under Reverse Charge Mechanism except for Renting of Immovable property where the tax has to be discharged by the Government |

| | |
|---|---|
| Other Services to non-business entities | Excluded from payment of service tax in terms of Negative List entry |
| Other Services to business entities below turnover of Rs. 10 lakhs | Exempted vide Notification No 07/2016 – ST |

4.6. From the above table, it is also evident that the applicability of service tax for other services provided by Government depends on whether the person receiving such services is a business entity or otherwise. As per section 65B(17) "business entity" is defined to mean any person ordinarily carrying out any activity relating to industry, commerce or any other business'. If person receiving services is not a business entity, there shall be no liability to pay service tax. Further, it must be noted that the business entities would even include individual, proprietary concern; partnership firms etc., if they carry out any kind of activity in the nature of business.

4.7. While the interpretation of a transaction as a statutory function vs a rendition of service by the Government is still to attain finality, the current budget speech also highlights the possibility of interpreting auction of certain rights and licenses granted by the Government as sale. To apprehend such fears the Finance Bill, 2016 also proposes to declare the assignment of radio-frequency spectrum as a service. The said amendment will be effective from a date of enactment of the Finance Bill, 2016.

4.8. The CENVAT Credit Rule, 2004 are also amended to permit CENVAT Credit of the above service tax. CENVAT Credit on service tax paid on the charges paid or payable for right to use any natural resource shall be taken over the period for which the right to use is assigned. Full cenvat credit on service tax paid on annual or monthly charges shall be allowed in the same financial year. A proviso giving effect to such provision is inserted in Rule 4(7).

4.9. In the above case, in case the person holding the right to use sells such right to another person for a consideration, then balance CENVATCredit will be allowed in the same financial year, subject to the condition that such balance credit should not exceed the service tax payable on the consideration charged

## 5. Procedural Amendments

5.1. One Person Companies will be treated at par with Individual and Proprietary concerns for the purposes of payment of service tax under Rule 6 including receipt basis taxation for small assessees. This is a welcome step.

5.2. However, the provisions of Notification 30/2012 prescribing Reverse Charge Mechanism have not been amended and therefore, for the said purpose One Person Companies will be treated as Body Corporate.

5.3. The Service Tax Rules, 1994 have been amended to prescribe for an annual return to be filed by 30th November each year. The said return can be revised within a period of one month from the date of submission of the original return. It may be noted that unlike regular returns the annual return can be revised only if the original return was filed in time

5.4. The Rules also prescribe for late filing fees extended uptoRs. 20,000/- for delayed filing of annual return. It may also be noted that the relevant date for the purposes of section 73 of the Finance Act, 1994 continues to be the date of periodic returns and not the annual return.

5.5. The normal period of limitation for issuance of SCN is increased from 18 months to 30 months. It is not clear whether the said amendment will grant a fresh lease of life to the department for a period which is already beyond 18 months but within 30 months. Of course, in general the department invokes the extended period of 5 years alleging suppression of facts.The said provision has not been amended.

5.6. In the last Budget, the Customs, Central Excise and Service Tax laws were amended to provide for closure of proceedings where the assessee pays duty/tax due, interest and specified penalty. Further amendments are being made to Service Tax law so as to provide for closure of proceedings against conoticees, once the proceedings against the main noticee have been closed.

5.7. The power to arrest in Service Tax is being restricted only to situations where the tax payer has collected the tax but not deposited it to the exchequer, and that too above a threshold of Rs 2 crore. The monetary limit for launching prosecution is being increased from Rs. 1 crore to Rs. 2 crore of Service Tax evasion

5.8. Notification No. 41/2012- ST, dated the 29th June, 2012 was amended by notification No.1/2016-ST dated 3rd February, 2016 so as to, inter alia, allow refund of Service Tax on services used beyond the factory or any other place or premises of production or manufacture of the said goods for the export of the said goods. This amendment is being made effective from the date of application of the parent notification (i.e. 1st July 2012)

## 6. CENVAT Credit Amendments

### 6.1. Eligibility

6.1.1. The provisions of Rule 2(a) have been amended to include capital goods used outside the factory of the manufacturer of the final products for pumping of water for captive use within the factory. Consequently, Rule 2(k) is amended to include goods used for pumping of water within the definition of inputs as well.

6.1.2. The provisions of Rule 2(a) have been further amended to include wagons falling under sub-heading 860692 of the Central Excise Tariff Act, 1985 in the definition of capital goods. Thus, enabling cenvat credit on wagons.

6.1.3. The provisions of Rule 2(k) have been amended to consider capital goods having a value uptoRs. 10,000 per piece, as inputs. Hence, full cenvat credit can be availed in year of purchase on such capital goods.

6.1.4. The provisions of Rule 6(4) have been amended to restrict the availability of cenvat credit on capital goods used for manufacture of exempt and non-exempt goods or provision of exempt and non-exempt service. Hereafter, cenvat credit shall not be allowed on capital goods used exclusively in the manufacturing of exempt goods or in providing exempt service for a period of two years from the date of commencement of the commercial production or provision of service. Two years will be calculated from the date of installation of such capital goods.

6.2. **Interpretation of Output Service**

6.2.1. Rule 2(e) is amended w.e.f. 01.03.2016 to exclude services by way of transportation of goods by a vessel from customs station of clearance in India to a place outside India from the definition of exempted services. With this amendment, therefore, though this service is now included in exemption list for levy of tax, reversal of cenvat credit under Rule 6(3) will not be required.

6.3. **Utilization of CENVAT Credit**

6.3.1. Rule 3(4) of Cenvat Credit Rules is amended w.e.f 01.03.2016 to prohibit utilization of cenvat credit of any duty for payment of National Calamity Contingent duty, except for the National Calamity Contingent duty itself.

6.3.2. Rule 4(5) is amended to restrict cenvat credit to a manufacturer in respect of jigs, fixtures, moulds and dies or tools sent by manufacturer to another manufacturer or a job worker for production of goods on his behalf. However, cenvat credit will be allowed even if the jigs, moulds and dies or tools are directly sent to the premises of the other manufacturer or the job-worker without bringing these to his own premises.

6.3.3. The order of Deputy Commissioner or Assistant Commissioner of Central Excise allowing clearance of goods from the premises of job-worker will be valid for a period of three financial years. Earlier the order used to be valid for a period one financial year.

6.4. **Composite Output**

6.4.1. A new explanation to Rule 6(1) is added to consider any activity which is not a service defined in Section 65B(44) of the Finance Act, 1994 as exempt service.

6.4.2. Rule 6(2) is replaced completely. Now, as per Rule 6(2) a manufacturer who exclusively manufactures exempted goods or a service provider who exclusively provides exempted service shall not be eligible for credit of any inputs and input services. Hence, reversal of credit on the basis of separate books of accounts is done away with.

6.4.3. The provisions of Rule 6(3) and 6(3A) have been amended for calculation of CENVAT credit reversal in relation to exempt goods removed or provision of exempt services.

6.4.4. As per the amendment, amount of reversal will be determined as under:

| **Particulars** | **Amount** |
|---|---|
| Total Cenvat Credit | T |
| Cenvat exclusively attributable to exempt goods removed or provision of exempt service | A |
| Cenvat exclusively attributable to non-exempt goods removed or provision of non-exempt service | B |
| Common Cenvat Credit (C) | T- (A+B) |
| Value of exempt goods removed and exempt service provided in preceding financial year | E |
| Value of total goods removed and total services provided in preceding financial year | F |
| Reversal of Cenvat Credit | C * E/ F |

6.4.5. Where preceding year figures are not available for calculation of E and F, cenvat credit attributable to ineligible common credit shall be deemed to be fifty percent of the common credit.

6.4.6. Thereafter after the year end, the calculation for reversal amount is to be done based on the actual figures of turnover and any shortage if identified is to be paid on or before 30th June of the succeeding financial year. Delay in making the payment will attract interest at the rate of 15% interest. Earlier 24% interest was payable.

6.4.7. Calculation of reversal amount based on Rule 6(2), 6(3) and 6(3A) is extended to banking companies and financial institutions as well. Henceforth, banks can either reverse 50% of the total cenvat credit or can follow the procedure as mentioned above for reversal of cenvat credit attributable to exempt service.

6.5. **Important Impact areas of the amended provisions of Rule 6**

6.5.1. Under the amended provisions of Rule 6, the term exempted service is defined to include an activity which is not a service under section 65B (44). This can have widespread ramifications in terms of reversal of credit

6.5.2. The amended Rule 6 permits the slicing of credits into three baskets i.e. taxable, exempted and common credit. The ratio of reversal would apply only to common credit. This effectively reverses the decision of Mumbai Tribunal in the case of Thyssenkrupp Industries (I) Private Limited Vs CCE Pune 2014 (310) E.L.T. 317 (Tri – Mum). The amended provisions would provide substantial relief and clarity on the claim of CENVAT Credit

6.5.3. The amended provisions also state that if the option of 6%/7% is chosen, the amount payable shall not exceed the credit available. This again is a welcome step and would reduce substantial litigation.

6.5.4. Under the amended rules, reference to taxable services has been done away and substituted by the phrase "non-exempted" service.

6.6. **Input Service Distributor**

6.6.1. Rule 7 pertaining to input service distributor is amended to accommodate an outsourced manufacturing unit for distribution of cenvat credit. The amendments are as under:

6.6.2. The definition of input service distributor is amended to enable the distribution of credit to an outsourced manufacturing unit besides manufacturer, producer or provider.

6.6.3. Outsourced manufacturing unit means a job-worker who is liable to pay duty on the value determined under rule 10A of the Central Excise Valuation (Determination of Price of Excisable Goods) Rules, 2000 on the goods manufactured for the input service distributor or a manufacturer who manufactures goods for the input service distributor under a contract, bearing the brand name of such input service distributor and is liable to pay duty on the value determined under section 4A of the Excise Act.

6.6.4. Credit is to be distributed pro rata only amongst such units to which the input service is attributable. Credit need not be allocated to units where input service is not attributable.

6.6.5. Credit can be distributed to outsourced manufacturing unit. The outsourced manufacturing unit is required to maintain separate books of accounts for such credits received and can utilize the credit for payment of duty on goods manufactured for the concerned input service distributor.

6.6.6. Provisions of Rule 6 pertaining to cenvat credit reversals do not apply to input service distributors but applies to the receiving unit.

6.7. **Other Provisions**

6.7.1. Rule 7B is inserted to allow manufacturers to take credit on inputs received under the cover of an invoice issued by a warehouse of the said manufacturer and the provisions of Excise Act apply to such warehouse also.

6.7.2. Rule 9A is amended to replace the current process of monthly returns of receipt and consumption of each principal units by an annual return and the provisions of Rule 12 of the Central Excise Rules, 2002 apply to such annual return.

6.7.3. Rule 14(2) has been deleted and therefore the priority of utilization of CENVAT Credit is left to the discretion of the assessees.

6.8. **Refund**

6.8.1. Notification 27/2012-CE(NT) has been amended vide Notification 14/2016-CE(NT) so as to prescribe the time limit for filing the refund claim under Rule 5 of the CENVAT Credit Rules, 2004 in case of export of services. Below is the time limit:

6.8.2. In case of manufacturer, before the expiry of the period specified in section 11B of the Central Excise Act, 1944.

6.8.3. In case of service provider, before the expiry of one year from the date of :
(a) Receipt of payment in convertible foreign exchange, where provision of service had been completed prior to receipt of such payment; or
(b) Issue of invoice, where payment for the service had been received in advance prior to the date of issue of the invoice.

## 7. Indirect Tax Dispute Resolution Scheme, 2016

7.1. The dispute resolution scheme aims to reduce the pending litigations before the first appellate authority (Commissioner Appeals). The said scheme is applicable in respect of dispute with respect to Customs Act, 1962, Central Excise Act, 1944 & Finance Act, 1994.

7.2. The said scheme aims at disposing of the pending appeals and the declarant shall get immunity from all the proceedings under the Act, in respect of indirect tax dispute.

7.3. The said scheme shall come into force w.e.f. 01.06.2016 and the person desirous of applying under the said scheme shall apply by 31.12.2016. The said scheme can be applied only in cases where the impugned order is in challenge and is pending before the Commissioner (Appeal) as an appeal as on 31.03.2016.

7.4. Upon receipt of the declaration, the designated authority shall acknowledge the declaration in such manner as may be prescribed.

7.5. The declarant thereafter shall pay tax due alongwith the interest and penalty equivalent to 25% of the penalty imposed in the impugned order within 15 days of the receipt of acknowledgment. The declarant shall intimate the payment details within 7 seven days of making the payment alongwith the proof of payment.

7.6. The designated authority upon receipt of intimation payment shall pass an order of discharge of dues in such form as may be prescribed. Once the order is passed by the designated authority, the appeal pending before the Commissioner (Appeal) shall stand disposed and the declarant shall get immunity from all proceedings under respective Act.

7.7. The order so passed by the designated authority shall result in conclusion of proceedings and no matter relating to such order can be reopened thereafter before any authority or court. Further, the issue shall not be deemed to be decided on merits and does not have any binding effect.

7.8. Moreover, the amount paid under such declaration shall not be allowed to be refunded. However, the said scheme cannot be availed by the following assessee's:

7.8.1. If the impugned order is in respect of search and seizure proceedings

7.8.2. If the impugned order is in respect of prosecution instituted before 01.06.2016 for any offence punishable under the Act

7.8.3. If the impugned order is in respect of narcotic drugs or other prohibited goods

7.8.4. If the impugned order is in respect of any offence punishable under the Indian Penal Code, the Narcotics Drugs and Psychotropic Substances Act, 1985 of the Prevention of Corruption Act, 1988

7.8.5. any detention order has been passed under the Conservation of Foreign Exchange and Prevention of Smuggling Act, 1974.

## 8. Sectoral Changes in Budget 2016

### 8.1. Construction

8.1.1. Over the last few years various exemptions provided to contractors for construction services rendered to Government agencies and infrastructure projects were withdrawn

8.1.2. Consequent to the withdrawal of such exemptions, the contractors faced challenges in paying the service tax especially in case of ongoing contracts, since the tax was not factored in at the time of bidding. The contractors therefore invoked subsequent legislation clauses against such government agencies.

8.1.3. The above resulted in blockage of funds and unnecessary litigation.Therefore, the current budget proposes a series of measures to grant an exemption for such ongoing contracts. The Budget also proposes to grant retrospective exemption in such case with consequential refund which needs to be claimed within a period of six months. The following services are granted this benefit

| Entry No of Not 25/2012 | Nature of Service | Contract Date before | Exemption upto |
|---|---|---|---|
| 12A | Construction provided to the Government, a local authority or a governmental authority, in respect of construction of govt. | 01.03.2015 | 01.04.2020 |

| | | | |
|---|---|---|---|
| | schools, hospitals etc. | | |
| 14A | Construction of ports, airports, | 01.03.2015 | 01.04.2020 |

8.1.4. Similarly, exemption on construction, erection, commissioning or installation of original works pertaining to monorail or metro, in respect of contracts entered into on or after 1st March 2016, is being withdrawn with effect from 1st March, 2016.

8.1.5. It may be noted that in all the above cases, fresh contracts entered after the dates mentioned above will become taxable. Also in the case of ongoing contracts, if sub contracts are issued after the dates mentioned above, they would also be liable for service tax.

8.1.6. Services provided by way of construction, maintenance etc. of canal, dam or other irrigation works provided to bodies set up by Government but not necessarily by an Act of Parliament or a State Legislature, during the period from the 1st July, 2012 to 29th January, 2014, are being exempted from Service Tax with consequential refunds, subject to the principle of unjust enrichment

8.1.7. Services by way of construction of low cost houses up to a carpet area of 60 square metres in a housing project under approved housing schemes are being exempted from Service Tax with effect from 1st March, 2016.

8.1.8. The abatement rate in respect of services by way of construction of residential complex, building, civil structure, or a part thereof, is being rationalized at 70%by merging the two existing rates (70% for high end flats and 75% for low end flats).

8.2. **Legal Services**

8.2.1. The levy of service tax on legal services has always been a subject matter of resistance from the legal fraternity. Currently, legal services rendered to business entities are liable for service tax under RCM and those rendered to non-business entities are exempted from payment of service tax. Also services rendered by advocates to other advocates and law firms are exempted from service tax

8.2.2. It is proposed that the exemption provided to services rendered by a senior advocate to an advocate or partnership firm of advocatesproviding legal service anda person represented on an arbitral tribunal to an arbitral tribunal, be withdrawn with effect from 1st April, 2016 and Service Tax is being levied under forward charge.

8.2.3. The above amendment presents issues relating to blockage of credit since the services rendered by law firm would be governed by RCM.

8.3. **Transport & Logistics**

8.3.1. The shipping industry has seen an a disproportionate share of litigation vis-à-vis service tax. While international transportation of goods was always sought to be exempted, the identification of various charges levied by a shipping line as being towards transportation or towards handling was challenged by the department. Further complications arose in claim of credits of taxes charged by ports and other agencies.

8.3.2. The freight forwarders faced a different set of challenges, though they acted on a principal basis, the department treated them as agents and effectively demanded service tax on the freight margins.

8.3.3. In the above background, the current budget proposes to impose service tax on international transportation of goods destined to India (Import Goods). It is felt that the shipping line can recover the service tax from the importer and claim the credits of taxes charged by the port and other agencies. Similarly if the importer is a manufacturer he can claim the credit of service tax charged by the shipping line.

8.3.4. In case of importers directly dealing with foreign shipping lines, it is expected that they would discharge service tax under RCM with corresponding CENVAT Credit.

8.3.5. It is accordingly felt that the amendment would ease the flow of credits. However, it may be noted that the industry operates on the principles of freight consolidation and the issue of whether a freight forwarder is an agent or a principal is not addressed by the budget. The proposed amendment while attempting to provide a level playing field to the domestic shipping lines, in fact results in discrimination between shipping lines and airlines since international air freight continues to remain outside the purview of service tax.

8.3.6. It may also be noted that in many cases the freight is paid by the foreign exporter to a foreign shipping line. In such cases naturally there would not be any service tax. However, since the value of the freight would be added in the cost of goods imported the same would be subject to Customs duty.

8.3.7. If an Indian Shipping line collects freight from a foreign exporter, service tax would be payable on the same in view of Rule 10 of Place of Provision of Service Rules, 2012 resulting in a disadvantage to an Indian shipping line as compared to a foreign shipping line.

8.3.8. Interestingly, under the Customs Valuation Rules, freight is treated as the part of the value of imported goods. With the imposition of service tax on such freight, there would be an overlap between customs duty and service tax. The TRU clarification suggests that service tax component shall not be a part of Customs Valuation. However, there is no amendment in the Customs Valuation Rules. Also recently the Mumbai Tribunal had held that once the freight is a part of customs valuation, service tax cannot be demanded on the same. As such the dual impact of customs duty and service tax will result in substantial litigation.

8.3.9. As far as Export of Goods is concerned, in view of Rule 10 of Place of Provision of Service Rule, 2012, the same is exempted from service tax.

Further due to an amendment in CENVAT Credit Rules, 2004 a corresponding credit will be available.

8.3.10. The abatement on shifting of used household goods by a Goods Transport Agency (GTA) is being rationalized at the rate of 60%, without CENVAT credit on inputs, input services and capital goods. (The existing rate of abatement of 70% allowed on transport of other goods by GTA continues unchanged).

8.3.11. Credit of input services is being allowed on transport of goods, other than in containers, by rail at the existing rate of abatement of 70%. Credit of input services is being allowed on transport of goods in containers by rail at a reduced abatement rate of 60%.

8.3.12. Credit of input services is being allowed on transport of goods by vessel at the existing rate of abatement of 70%.

8.3.13. The following table summarizes various situations and applicability of service tax in the field of transportation:

8.4. **Software**

8.4.1. The classification of software as product or service has seen its fair share of litigation. This results in overlaps not only between VAT and service tax but also between Excise Duty and Service Tax. The Budget tries to address this issue of overlaps between Excise Duty and Service tax and has made both the levies mutually exclusive of each other.

8.5. **Travel & Tourism**

8.5.1. The Negative List entry that covers 'service of transportation of passengers, with or without accompanied belongings, by a stage carriage is being omitted with effect from 1st June, 2016.

# CENTRAL EXCISE

1. Not once in the speech was GST spoken, neither its developments were addressed, but we know that the same is soon a reality, so is this budget reflecting glimpse of GST? Amendments in Central Excise are quite significant and necessary loopholes are filled. According to me cleanup was required and this budget is an answer to it. With this short introduction, let us sail over through the amendments affected this year.

2. **Rate Change**:

a. The basic rate of excise duty is unchanged at 12.5%.

Infrastructure Cess:

b. A new levy in the name of central excise duty called infrastructure cess would be levied on all on motor vehicles falling under chapter 8703 of the First Schedule to the Central Excise Tariff Act, 1985. The said entry includes:

- Petrol/LPG/CNG driven motor vehicles of length not exceeding 4m and engine capacity not exceeding 1200cc – 1%

- Diesel driven motor vehicles of length not exceeding 4m and engine capacity not exceeding 1500cc – 2.5%

- Other higher engine capacity motor vehicles and SUVs and bigger sedans – 4%.

But does not include

- Three wheeled vehicles, Electrically operated vehicles, Hybrid vehicles, Hydrogen vehicles based on fuel cell technology, Motor vehicles which after clearance have been registered for use solely as taxi, Cars for physically handicapped persons and Motor vehicles cleared as ambulances or registered for use solely as ambulance

c. The rate of the cess would be 4% on the value of such goods as specified above.

d. Further, the provisions of the Central Excise Act, 1944 and the rules made thereunder, including those relating to assessment, non-levy, short-levy, refunds, interest, appeals, offences and penalties, shall, as far as may be, apply in relation to the levy and collection of the cess leviable under sub-section (1) in respect of the goods specified in the Eleventh Schedule as they apply in relation to the levy and collection of the duties of excise on such goods under the said Act or the rules, as the case may be.

e. The same is **effective immediately (i.e. from 01.03.2016)** owing to a declaration made under the Provisional Collection of Taxes Act, 1931.

3. **Legislative Amendments:**

a. The normal period of invocation for raising demands in cases not involving fraud, suppression of facts, willfulmis-statement, etc under Section 11A of the Central Excise Act, 1944 is increased to two years from the present period of one year.

b. Central Board of Excise and Customs can issue Instructions/orders/directions issued for the purpose of uniformity in the classification of excisable goods or with respect to levy of duties of excise on such goods or for the implementation of any other provision of this act.

4. **Change in Rate of Duties and Exemption:**
A summarized change in excise duty rate structure is summarized under annexure-1 to the said note.

5. **Levy of Excise Duty on Readymade Garments:**
Scope of levy:

a. Excise duty is being levied on readymade garments and made up articles of textiles falling under Chapters 61, 62 and 63 (heading Nos. 6301 to 6308) of the First Schedule under Central Excise Tariff Act, 1985. Excise duty is payable only on such products where its retail sale price (RSP) is Rs.1000 and above when they bear or are sold under a brand name.

b. The levy shall not apply to retail tailoring establishments that stitch garments in a customized manner to the size and style specifications of individual customers, whether out of fabric purchased by the customer from the same establishment or fabric supplied by the customer.

c. The levy shall not apply to those garments falling under 6309 and 6310.

d. In respect of readymade garments and made up articles of textiles other than those mentioned above, the optional levy of "Nil" (without CENVAT credit) or 6% (with CENVAT credit) in case of garments / articles of cotton, not containing any other textile material and "Nil" (without CENVAT credit) or 12.5% (with CENVAT credit) in case of garments / articles of other composition, as the case may be, shall continue.

Rate of levy:

e. Excise duty of 2% (without CENVAT credit) or 12.5% (with CENVAT credit) is being levied on above mentioned readymade garments. This optional levy would apply to such readymade garments and made up articles of textiles regardless of the composition of the garment / article.

Value on which excise duty is payable:

f. The tariff value for readymade garments and made up articles of textile is also being increased from 30% to 60% which shall apply to all goods mentioned in

the notification. Accordingly, the optional rate of 2% or 12.5% is being made applicable on the above mentioned revised tariff value.

Whether small scale exemption available?

g. Small scale exemption is being extended to readymade garments and the value for computing the eligibility as well as the exemption limit for purposes of SSI exemption would be the tariff value of the goods.

h. The SSI exemption for the month of March, 2016 will be Rs.12.5 lakh, subject to fulfillment of other conditions of the notification No.8/2003-C.E., dated 01.03.2003. For this purpose, notification No.8/2003-C.E., dated 1st March, 2003 is being amended suitably.

i. The eligibility for availing of the SSI exemption in 2015-16 for the month of March 2016 is that the value of clearances for home consumption from one or more manufacturer from one or more unit should not have exceeded Rs. 4 crore in the financial year 2014-15. The computation for this purpose shall be done in accordance with the provisions of Para 3A of notification No. 8/2003-C.E. For this purpose, a certificate from a Chartered Accountant based on the books of accounts for 2014-15 shall suffice.

j. Excisable goods which were produced on or before 29.02.2016 but lying in stock as on 29.02.2016 shall attract excise duty upon clearance. Manufacturers shall keep a stock declaration of finished goods, goods-in-process and inputs as on 29.02.2016 in their records duly certified by a Chartered Accountant so as to enable the manufacturers to claim CENVAT credit on inputs or inputs contained in goods lying in stock as already provided for in Rule 3(2) of the CENVAT Credit, Rules, 2004, if he so desires. **No stock declaration, will, however, be required to be made to the jurisdictional central excise authorities.**

Certain clarifications:

k. Full exemption from Central Excise duty will be available to duty-paid goods returned to the manufacturer during a financial year up to an aggregate ceiling not exceeding 10% of the value of clearances for home consumption made in the preceding financial year. The manufacturer would be required to observe the following procedure as prescribed for the purpose of claiming exemption.

l. The brand name owner, who gets the goods manufactured on his own account on job work, shall pay the duty leviable on such goods as if the goods were manufactured by him. The brand name owner (and not the job-worker) shall be required to register and comply with all the provisions of Central Excise law. However, the brand-owner can authorise the job-worker to pay the duty leviable on such goods subject to certain conditions.

m. A unit which manufactures goods bearing the brand name of another person out of inputs or raw materials which have been purchased independently and not supplied by the brand owner, does not satisfy the definition of "job-worker" and would, therefore, have to obtain registration and discharge the duty liability.

n. In cases where the brand name owner gets goods bearing its brand manufactured from other manufacturers (normally small units) without providing the raw materials or inputs, and if the RSP is not affixed or marked on such goods when they are cleared in the course of sale from the factory of a manufacturer to the brand owner, then no excise duty would be payable by such a manufacturers since the RSP of such goods is not disclosed to them by the brand owner. However, since the process of labeling or re-labelling constitutes a process of "manufacture", duty on the tariff value (based on the RSP) would be payable as and when the brand owner labels the goods with the RSP of Rs.1000 or above and clears them for further sale.

6. **Levy of Excise Duty on Articles of Jewellery:**

Scope of levy:

a. Excise duty is being levied on the manufacturing of articles of jewellery. However, the levy excludes manufacturing of silver jewellery, other than studded with diamonds/other precious stones.

Rate of levy:

b. Excise duty of 2% (without CENVAT credit) or 12.5% (with CENVAT credit) is being levied on above mentioned articles of jewellery.

Whether small scale exemption available?

c. SSI exemption under notification 8/2003 – C.E. dated 01.03.2003 is available with a higher threshold exemption uptoRs. 6 crore in a year and eligibility limit of 12 crore.Thus, a jewellery manufacturer will be eligible for exemption from excise duty on first clearances uptoRs. 6 Crore during a financial year, if his aggregate domestic clearances during preceding financial year were less than Rs. 12 crore. In other words, jewellery manufacturer having aggregate value of clearances in a financial year exceeding Rs. 12 crore will not be eligible for this threshold exemption in the subsequent financial year.

d. The SSI exemption for the month of March, 2016 for jewellery manufacturers will be Rs.50 lakh, subject to the condition that value of clearances for home consumption from one or more manufacturer from one or more factory or premises of production or manufacture during the financial year 2014-15 should not be more than Rs. 12 crore. Computation for this purpose shall be done in accordance with the provisions of Para 3A of notification No. 8/2003- CE. For this purpose, a certificate from a Chartered Accountant, based on the books of accounts for 2014-15, shall suffice

e. Similarly, for determining the eligibility for availing of the SSI exemption from 2016-17 onwards, a certificate from a Chartered Accountant, based on the books of accounts for 2015-16, shall suffice.

Certain clarifications:

f. Excisable goods which were produced on or before 29.02.2016 but lying in stock as on 29.02.2016 shall attract excise duty upon clearance. Jewellery manufacturer shall keep a stock declaration of finished goods, goods-in-process and inputs as on 29.02.2016 in their records duly certified by a Chartered Accountant so as to enable the manufacturers to claim CENVAT credit on inputs or inputs contained in goods lying in stock as already provided for in Rule 3(2) of the CENVAT Credit, Rules, 2004, if he so desires. **No stock declaration, will, however, be required to be made to the jurisdictional central excise authorities.**

g. Moreover, documents being maintained by the jewellery manufacturers **for State VAT or Bureau of Indian Standards (in the case of hallmarked jewellery) shall suffice for Excise purposes also.**

h. The private records of the jewellery manufacturers, giving details of daily stock for his own purposes, shall be accepted for the purposes of Rule 10 of the Central Excise Rules 2002.

i. Registration process has been simplified and even centralized registration has been made available to jewellery manufacturers seeking registration. Further, it has been clarified that no field staff will visit the premise for the purpose of registration and the same would be granted within 2 days.

j. Jewellery manufacturers will be eligible for a simplified return applicable for optional excise duty of 1%/2% without CENVAT credit under notification No.1/2011-CE, under Rule 12 of the Central Excise Rules, 2002.

k. Rule 12AA of the Central Excise Rules, 2002 provides that in case of goods falling under chapter heading 7113, every person (not being an EOU or SEZ unit) who gets jewellery made from any other person, and supplies the raw materials such as gold/silver/gemstones to the job-worker for such manufacture, the duty liability would be on such person who gets articles of jewellery made from the job worker. In such cases, the principal manufacturer (and not job worker) will be required to get Central Excise registered, pay duty and follow other compliance requirements. This will ensure that small artisans/goldsmiths are not required to take any excise registration.

7. **Changes under Central Excise Rules, 2002:**

a. Manner of calculating interest on provisional assessment has been clarified and accordingly interest is payable at the specified rate for the period starting with the first day after the due date till the date of actual payment, whether such amount is paid before or after the issue of order for final assessment.

Illustrations:

- ✓ Goods under provisional assessment, cleared in the month of January, 2015 Provisional duty of Rs 5000 is paid on the 6th February, 2015 [due date under sub-rule (1) of rule 8]. # CENTRAL SALES TAX

**Amendment proposed in the Central Sales Tax Act, 1956**

Section 3 of the Central Sales Tax Act, 1956 formulates principles for determining when a sale or purchase of goods takes place in the course of inter-State Trade or Commerce.

**Existing Provision:**

In the case of gas its physical movement is normally through a pipeline. However, in the C.S.T. Act, 1956 this mode of transportation is not expressly provided in Section 3 of the Act, though the same was recognised by way of judicial pronouncement by certain High Courts. The Allahabad High Court Judgment in 2012 in the case of Reliance Industries is one such example.

**Proposed Provision**:

Clause No. 221 of the Finance Bill, 2016 reads as follows:

In the Central Sales Tax Act, 1956, in section 3, after Explanation 2, the following Explanation shall be inserted, namely:—

"Explanation 3.-– Where the gas sold or purchased and transported through a common carrier pipeline or any other common transport or distribution system becomes co-mingled and fungible with other gas in the pipeline or system and such gas is introduced into the pipeline or system in one State and is taken out from the pipeline in another State, such sale or purchase of gas shall be deemed to be a movement of goods from one State to another.".

The above clarification is in tune with the principles of section 3(a) of the C.S.T. Act, 1956. The explanation accepts the newer mode of transportation viz. through a pipeline. As mentioned earlier, somewhat similar view was taken by the Allahabad High Court in 2012 in the case of Reliance Industries.

With the insertion of the above Explanation the interpretation is made crystal clear i.e. , when gas is purchased or sold and it is transported with other gas through a common pipeline or system from one State to another it will be deemed to be a movement of goods from one State to another. And, therefore, the claim u/s section 3(a) can be allowed to all the dealers whose goods (gas) is being transported through a pipeline.

The proposed amendment is clarificatory in nature and will apply to all the transactions of the like nature in past too.
